INTRODUCTION

On the personal request of the Honorable U Nu, Prime Minister, and Thado Thiri Thudhamma Sir U Thwin, President of the Buddha Sasananuggaha Association, the Venerable Mahasi Sayadaw, Bhadanta Sobhana Mahathera, came down from Shwebo to Rangoon on 10th November 1949. The Meditation Centre at the Thathana Yeiktha, Hermitage Road, Rangoon, was formally opened on 4th December 1949, when the Mahasi Sayadaw began to give to fifteen devotees a methodical training in the right system of Satipatthana Vipassana.

From the first day of the opening of the Centre a discourse on the exposition of Satipatthana Vipassana, its purpose, the method of practice, the benefits derived therefrom, etc., has been given daily to each batch of devotees arriving at the Centre almost everyday to undertake the intensive course of training. The discourse lasts usually for one hour and thirty minutes, and the task of talking almost daily in this manner inevitably caused a strain. Fortunately, the Buddha Sasananuggaha Association came forward to relieve the situation with an offer of the donation of a tape-recorder, and the discourse given on 27th July 1951 to a group of fifteen devotees undertaking the training was taped. Thereafter this taped discourse has been in constant daily use preceded by a few preliminary remarks spoken by the Mahasi Sayadaw.

Then, owing to the great demand of many branch meditation centers of the Mahasi Satipatthana Vipassana, as well as of the public, this discourse was published in book form in 1954. The book has now run into its sixth edition. As there is also a keen interest and eager demand among many devotees of other nationalities who are unacquainted with Burmese, the discourse is now translated into English.

SATIPATTHANA-VIPASSANA

//Namo Buddhassa//
//Honor to the Fully Enlightened One//

On coming across the Teaching of the Buddha, it is most important for everyone to cultivate the virtues of moral conduct (//sila//), concentration (//samadhi//), and wisdom (//panna//). One should undoubtedly possess these three virtues.

For laypeople the minimal measure of moral conduct is the observance of the Five Precepts. For bhikkhus it is the observance of the Patimokkha, the code of monastic discipline. Anyone who is well-disciplined in moral conduct will be reborn in a happy realm of existence as a human being or a //deva// (god).

However, this ordinary form of mundane morality (//lokiya-sila//) will not be a safeguard against relapse into the lower states of miserable existence, such as hell, the animal realm, or the realm of petas (ghosts). It is therefore desirable to cultivate the higher form of supramundane morality (//lokuttara-sila//). When one has fully acquired the virtue of this morality, one will be secure from relapse into the lower states and will always lead a happy life by being reborn as a human being or a deva. Everyone should therefore make it his duty to work for supramundane morality.

There is every hope of success for anyone who strives sincerely and in real earnestness. It would indeed be a pity if anyone were to fail to take advantage of this fine opportunity of being endowed with higher qualities, for such a person will undoubtedly be a victim sooner or later of his own bad karma, which will pull him down to the lower states of miserable existence in hell, the animal realm, or the sphere of petas, where the span of life lasts for many hundreds, thousands or millions of years. It is therefore emphasized here that coming across the Teaching of the Buddha is the unique opportunity to work for path

morality (//magga-sila//) and fruition morality (//phala-sila//).

It is not, however, advisable to work for moral conduct alone. It is also necessary to practice //samadhi// or concentration. Samadhi is the fixed or tranquil state of mind. The ordinary or undisciplined mind is in the habit of wandering to other places. It cannot be kept under control, but follows any idea, thought or imagination, etc. In order to prevent this wandering, the mind should be made to attend repeatedly to a selected object of concentration. On gaining practice, the mind gradually abandons its distractions and remains fixed on the object to which it is directed. This is samadhi.

There are two kinds of concentration: mundane concentration (//lokiya-samadhi//) and supramundane concentration (//lokuttara-samadhi//). Of these two, the former consists in the mundane absorptions, such as the four //rupa-jhanas// -- the absorptions pertaining to the world of form -- and the four //arupa-jhanas// -- the absorptions pertaining to the formless world. These can be attained by the practice of tranquility meditation (//samatha-bhavana//) with such methods as mindfulness of breathing, loving-kindness (//metta//), kasina meditation, etc. By virtue of these attainments one will be reborn in the plane of the brahmas. The life-span of a brahma is very long and lasts for one world cycle, two, four, or eight world cycles, up to a limit of 84,000 world cycles, as the case may be. But at the end of his lifespan, a brahma will die and be reborn as a human being or a deva.

If one leads a virtuous life all the time, one may lead a happy life in a higher existence, but as one is not free from the defilements of attachment, aversion and delusion, one may commit demeritorious deeds on many occasions. One will then be a victim of his bad karma and be reborn in hell or in other lower states of miserable existence. Thus mundane concentration also is not a definite security. It is desirable to work for supramundane concentration, the concentration of the path (//magga//) and the fruit (//phala//). To acquire this concentration it is essential to cultivate wisdom (//panna//).

There are two forms of wisdom: mundane and supramundane. Nowadays,

knowledge of literature, art, science, or other worldly affairs is usually regarded as a kind of wisdom, but this form of wisdom has nothing to do with any kind of mental development (//bhavana//). Nor can it be regarded as of real merit, because many weapons of destruction are invented through these kinds of knowledge, which are always under the influence of attachment, aversion, and other evil motives. The real spirit of mundane wisdom, on the other hand, has only merits and no demerits of any kind. True mundane wisdom includes the knowledge used in welfare and relief work, which causes no harm; learning to acquire the knowledge of the true meaning or sense of the scriptures; and the three classes of knowledge of development for insight (//vipassana-bhavana//), such as knowledge born of learning (//sutamaya-panna//), knowledge born of reflection (//cintamaya-panna//), and wisdom born of meditative development (//bhavanamaya-panna//). The virtue of possessing mundane wisdom will lead to a happy life in higher states of existence, but it still cannot prevent the risk of being reborn in hell or in other states of miserable existence. Only the development of supramundane wisdom (//lokuttara-panna//) can decidedly remove this risk.

Supramundane wisdom is the wisdom of the path and fruit. To develop this wisdom it is necessary to carry on the practice of insight meditation (//vipassana-bhavana//) out of the three disciplines of morality, concentration, and wisdom. When the virtue of wisdom is duly developed, the necessary qualities of morality and concentration will also be acquired.

//The Development of Wisdom//

The method of developing this wisdom is to observe materiality (//rupa//) and mentality (//nama//) -- the two sole elements existing in a living being -- with a view to knowing them in their true nature. At present, experiments in the analytical observation of materiality are usually carried out in laboratories with the aid of various kinds of instruments, yet these methods cannot deal with the mind. The

method of the Buddha does not require any kind of instruments or outside aid. It can successfully deal with both materiality and mentality. It makes use of one's own mind for analytical purposes by fixing bare attention on the activities of materiality and mentality as they occur within oneself. By continually repeating this form of exercise, the necessary concentration can be gained, and when concentration is keen enough, the ceaseless course of arising and passing away of materiality and mentality will be vividly perceptible.

The living being consists solely of the two distinct groups of materiality and mentality. The solid substance of body as it is now found belongs to the group of materiality. According to the usual enumeration of material phenomena, there are altogether twenty-eight kinds in this group, but in short it may be noted that body is a mass of materiality. For example, it is the same as a doll made of clay or wheat, which is nothing but a collection of particles of clay or flour. Materiality changes its form (//ruppati//) under physical conditions of heat, cold, etc., and because of this changeableness under contrary physical conditions, it is called //rupa// in Pali. It does not possess any faculty of knowing an object.

In the Abhidhamma, the elements of mentality and materiality are classified as "states with object" (//sarammana-dhamma//) and "states without object" (//anarammana-dhamma//), respectively. The element of mentality has an object, holds an object, knows an object, while that of materiality does not have an object, does not hold an object, and does not know an object. It will thus be seen that the Abhidhamma has directly stated that materiality has no faculty of knowing an object. A yogi also perceives in like manner that "materiality has no faculty of knowing."

Logs and pillars, bricks and stones and lumps of earth are a mass of materiality. They do not possess any faculty of knowing. It is the same with the materiality which makes up a living body -- it has no faculty of knowing. The materiality in a dead body is the same as that of a living body -- it does not possess any faculty of knowing. People, however, have a common idea that the materiality of a living body possesses the faculty of knowing an object and that it loses this

faculty only at death. This is not really so. In actual fact, materiality does not possess the faculty of knowing an object in either a dead or a living body.

What is it then that knows objects now? It is mentality, which comes into being depending on materiality. It is called //nama// in Pali because it inclines (//namati//) towards an object. Mentality is also spoken of as thought or consciousness. Mentality arises depending on materiality: depending on the eye, eye-consciousness (seeing) arises; depending on the ear, ear-consciousness (hearing) arises; depending on the nose, nose-consciousness (smelling) arises; depending on the tongue, tongue-consciousness (tasting) arises; depending on the body, body-consciousness (sense of touch) arises. There are many kinds of sense of touch, either good or bad.

While touch has a wide field of action in running throughout the whole length of the body, inside and outside, the sense of seeing, hearing, smelling and tasting come into being in their own particular spheres -- the eye, ear, nose and tongue -- each of which occupies a very small and limited area of the body. These senses of touch, sight, etc., are nothing but the elements of mind. There also comes into being mind-consciousness -- thoughts, ideas, imaginings, etc. -- depending on the mind-base. All of these are elements of mind. Mind knows an object, while materiality does not know an object.

//Seeing//

People generally believe that in the case of seeing, it is the eye which actually sees. They think that seeing and the eye are one and the same thing. They also think: "Seeing is I," "I see things," "The eye, seeing, and I are one and the same person." In reality this is not so. The eye is one thing and seeing is another, and there is no separate entity such as "I" or "ego." There is only the reality of seeing coming into being depending on the eye.

To give an example, it is like the case of a person who sits in a house. The house and the person are two separate things: the house is not the person, nor is the person the house. Similarly, it is so at

the time of seeing. The eye and seeing are two separate things: the eye is not seeing, nor is seeing the eye.

To give another example, it is just like the case of a person in a room who sees many things when he opens the window and looks through it. If it is asked, "Who is it that sees? Is it the window or the person that actually sees?" the answer is, "The window does not possess the ability to see; it is only the person who sees." If it is again asked, "Will the person be able to see things on the outside without the window?" the answer will be, "It is not possible to see things through the wall without the window. One can only see through the window." Similarly, in the case of seeing, there are two separate realities of the eye and seeing. The eye is not seeing, nor is seeing the eye, yet there cannot be an act of seeing without the eye. In reality, seeing comes into being depending on the eye.

It is now evident that in the body there are only two distinct elements of materiality (eye) and mentality (seeing) at every moment of seeing. In addition, there is also a third element of materiality -- the visual object. At times the visual object is noticeable in the body and at times it is noticeable outside the body. With the addition of the visual object there will then be three elements, two of which (the eye and the visual object) are materiality and the third of which (seeing) is mentality. The eye and the visual object, being materiality, do not possess the ability to know an object, while seeing, being mentality, can know the visual object and what it looks like. Now it is clear that there exist only the two separate elements of materiality and mentality at the moment of seeing, and the arising of this pair of separate elements is known as seeing.

People who are without the training in and knowledge of insight meditation hold the view that seeing belongs to or is "self," "ego," "living entity," or "person." They believe that "seeing is I," or "I am seeing," or "I am knowing." This kind of view or belief is called //sakkaya-ditthi// in Pali. //Sakkaya// means the group of materiality (//rupa//) and mentality (//nama//) as they exist distinctively. //Ditthi// means a wrong view or belief. The compound word //sakkaya-ditthi// means a wrong view or belief in self with regard to

//nama// and //rupa//, which exist in reality.

For greater clarity, we will explain further the manner of holding the wrong view or belief. At the moment of seeing, the things which actually exist are the eye, the visual object (both materiality), and seeing (mentality). //Nama// and //rupa// are reality, yet people hold the view that this group of elements is self, or ego, or a living entity. They consider that "seeing is I," or "that which is seen is I," or "I see my own body." Thus this mistaken view is taking the simple act of seeing to be self, which is //sakkaya-ditthi//, the wrong view of self.

As long as one is not free from the wrong view of self, one cannot expect to escape from the risk of falling into the miserable realms of the hells, the animals or the petas. Though one may be leading a happy life in the human or deva world by virtue of one's merits, yet one is liable to fall back into the miserable states of existence at any time, when one's demerits operate. For this reason, the Buddha pointed out that it is essential to work for the total removal of the wrong view of self:

> "Let a monk go forth mindfully to abandon view of self" (//sakkaya-ditthippahanaya sato bhikkhu paribbaje//).

To explain: though it is the wish of everyone to avoid old age, disease and death, no one can prevent their inevitable arrival. After death, rebirth follows. Rebirth in any state of existence does not depend on one's own wish. It is not possible to avoid rebirth in the hell realm, the animal realm or the realm of the petas by merely wishing for an escape. Rebirth takes place in any state of existence as the consequence of one's own deeds: there is no choice at all. For these reasons, the round of birth and death, //samsara//, is very dreadful. Every effort should therefore be made to acquaint oneself with the miserable conditions of samsara, and then to work for an escape from samsara, for the attainment of Nibbana.

If an escape from samsara as a whole is not possible for the present, an attempt should be made for an escape at least from the round of

rebirth in the hell realms, the animal realm and the peta realm. In this case it is necessary to work for the total removal within oneself of //sakkaya-ditthi//, which is the root cause of rebirth in the miserable states of existence. //Sakkaya-ditthi// can only be destroyed completely by the noble path and fruit: the three supramundane virtues of morality, concentration and wisdom. It is therefore imperative to work for the development of these virtues. How should one do the work? By means of noting or observing one must go out from the jurisdiction of defilements (//kilesa//). One should practice by constantly noting or observing every act of seeing, hearing, etc., which are the constituent physical and mental processes, till one is freed from //sakkaya-ditthi//, the wrong view of self.

For these reasons advice is always given here to take up the practice of vipassana meditation. Now yogis have come here for the purpose of practicing vipassana meditation who may be able to complete the course of training and attain the noble path in no long time. The view of self will then be totally removed and security will be finally gained against the danger of rebirth in the realms of the hells, animals and petas.

In this respect, the exercise is simply to note or observe the existing elements in every act of seeing. It should be noted as "seeing, seeing" on every occasion of seeing. By the terms "note" or "observe" or "contemplate" is meant the act of keeping the mind fixedly on the object with a view to knowing it clearly.

When this is done, and the act of seeing is noted as "seeing, seeing," at times the visual object is noticed, at times consciousness of seeing is noticed, at times the eye-base, the place from which one sees, is noticed. It will serve the purpose if one can notice distinctly any one of the three. If not, based on this act of seeing there will arise //sakkaya-ditthi//, which will view it in the form of a person or as belonging to a person, and as being permanent, pleasurable, and self. This will arouse the defilements of craving and attachment, which will in turn prompt deeds, and the deeds will bring forth rebirth in a new existence. Thus the process of dependent

origination operates and the vicious circle of samsara revolves incessantly. In order to prevent the revolving of samsara from this source of seeing, it is necessary to note "seeing, seeing" on every occasion of seeing.

//Hearing, Etc.//

Similarly, in the case of hearing, there are only two distinct elements, materiality and mentality. The sense of hearing arises depending on the ear. While the ear and sound are two elements of materiality, the sense of hearing is the element of mentality. In order to know clearly any one of these two kinds of materiality and mentality, every occasion of hearing should be noted as "hearing, hearing." So also, "smelling, smelling" should be noted on every occasion of smelling, and "tasting, tasting" on every occasion of tasting.

The sensation of touch in the body should be noted in the very same way. There is a kind of material element known as bodily sensitivity throughout the body, which receives every impression of touch. Every kind of touch, either agreeable or disagreeable, usually comes in contact with bodily sensitivity, and from this there arises body-consciousness, which feels or knows the touch on each occasion. It will now be seen that at every moment of touching there are two elements of materiality -- the bodily sensitivity and the tangible object -- and one element of mentality -- knowing of touch.

In order to know these things distinctly at every moment of touching, the practice of noting as "touching, touching" has to be carried out. This merely refers to the common form of sensation of touch. There are special forms which accompany painful or disagreeable sensations, such as feeling stiffness or tiredness in the body or limbs, feeling hot, pain, numb, aches, etc. Because feeling (//vedana//) predominates in these cases, it should be noted as "feeling hot," "feeling tired," "feeling painful," etc., as the case may be.

It may also be mentioned that there occur many sensations of touch in the hands, the legs, and so on, on each occasion of bending,

stretching, or moving. Because of mentality wanting to move, stretch or bend, the material activities of moving, stretching or bending, etc., occur in series. (It may not be possible to notice these incidents at the outset. They can only be noticed after some time, on gaining experience by practice. It is mentioned here for the sake of general information.) All activities in movements and in changing, etc., are done by mentality. When mentality wills to bend, there arises a series of inward movements of hand or the leg. When mentality wills to stretch or move, there arises a series of outward movements or movements to and fro. They fall away soon after they occur and at the very point of occurrence, as one will notice later.

In every case of bending, stretching, or other activities, there arises first a series of intentions, moments of mentality, inducing or causing in the hands and legs a series of material activities, such as stiffening, bending, stretching, or moving to and fro. These activities come up against other material elements, the bodily sensitivity, and on every occasion of contact between material activities and sensitive qualities, there arises body-consciousness, which feels or knows the sensation of touch. It is therefore clear that material activities are predominating factors in these cases. It is necessary to notice the predominating factors. If not, there will surely arise the wrong view which regards these activities as the doings of an "I" -- "I am bending," "I am stretching," "my hands," or "my legs." This practice of noting as "bending," "stretching," "moving," is carried out for the purpose of removing such wrong views.

//Mind//

Depending on the mind-base there arises a series of mental activities, such as thinking, imagining, etc., or generally speaking, a series of mental activities arises depending on the body. In reality, each case is a composition of mentality and materiality, mind-base being materiality, and thinking, imagining, and so forth being mentality. In order to be able to notice materiality and mentality clearly, "thinking," "imagining," and so forth should be noted in each case.

After having carried out the practice in the manner indicated above

for some time, there may be an improvement in concentration. One will notice that the mind no longer wanders about but remains fixed on the object to which it is directed. At the same time, the power of noticing has considerably developed. On every occasion of noting, one notices only two processes of materiality and mentality: a dual set of object (materiality) and mental state (mentality), which makes note of the object, arising together.

Again, on proceeding further with the practice of contemplation, after some time one notices that nothing remains permanent, but that everything is in a state of flux. New things arise each time. Each of them is noted as it arises. Whatever arises then passes away immediately and immediately another arises, which is again noted and which then passes away. Thus the process of arising and passing away goes on, which clearly shows that nothing is permanent. One therefore realizes that "things are not permanent" because one sees that they arise and pass away immediately. This is insight into impermanence (//aniccanupassana-nana//).

Then one also realizes that "arising and passing are not desirable." This is insight into suffering (//dukkhanupassana-nana//). Besides, one usually experiences many painful sensations in the body, such as tiredness, heat, aching, and at the time of noting these sensations, one generally feels that this body is a collection of sufferings. This is also insight into suffering.

Then at every time of noting it is found that elements of materiality and mentality occur according to their respective nature and conditioning, and not according to one's wishes. One therefore realizes that "they are elements; they are not governable; they are not a person or living entity." This is insight into non-self (//anattanupassana-nana//).

On having fully acquired these insights into impermanence, suffering, and non-self, the maturity of knowledge of the path (//magga-nana//) and knowledge of fruition (//phala-nana//) takes place and realization of Nibbana is won. By winning the realization of Nibbana in the first stage, one is freed from the round of rebirth in the realms of

miserable existence. Everyone should therefore endeavor to reach the first stage, the path and fruit of stream-entry, as a minimum measure of protection against an unfortunate rebirth.

//The Beginner's Exercise//

It has already been explained that the actual method of practice in vipassana meditation is to note, or to observe, or to contemplate, the successive occurrences of seeing, hearing, and so on, at the six sense doors. However, it will not be possible for a beginner to follow these on all successive incidents as they occur because his mindfulness (//sati//), concentration (//samadhi//), and knowledge (//nana//) are still very weak. The moments of seeing, hearing, smelling, tasting, touching, and thinking occur very swiftly. It seems that seeing occurs at the same time as hearing, that hearing occurs at the same time as seeing, that seeing and hearing occur simultaneously, that seeing, hearing, thinking and imagining always occur simultaneously. Because they occur so swiftly, it is not possible to distinguish which occurs first and which second.

In reality, seeing does not occur at the same time as hearing, nor does hearing occur at the same time as seeing. Such incidents can occur only one at a time. A yogi who has just begun the practice and who has not sufficiently developed his mindfulness, concentration and knowledge will not, however, be in a position to observe all these moments singly as they occur in serial order. A beginner need not, therefore, follow up on many things. He needs to begin with only a few things.

Seeing or hearing occurs only when due attention is given to their objects. If one does not pay heed to any sight or sound, one may pass the time without any moments of seeing or hearing taking place. Smelling rarely occurs. The experience of tasting can only occur while one is eating. In the case of seeing, hearing, smelling and tasting, the yogi can note them when they occur. Body impressions, however, are ever present. They usually exist distinctly all the time. During the

time that one is sitting, the body impression of stiffness or the sensation of hardness in this position is distinctly felt. Attention should therefore be fixed on the sitting posture and a note made as "sitting, sitting, sitting."

//Sitting//

Sitting is an erect posture of the body consisting of a series of physical activities, induced by consciousness consisting of a series of mental activities. It is just like the case of an inflated rubber ball which maintains its round shape through the resistance of the air inside it. The posture of sitting is similar in that the body is kept in an erect posture through the continuous process of physical activities. A good deal of energy is required to pull up and keep in an erect position such a heavy load as this body. People generally assume that the body is lifted and kept in an upright position by means of sinews. This assumption is correct in a sense because sinews, blood, flesh and bones are nothing but materiality. The element of stiffening which keeps the body in an erect posture belongs to the group of materiality and arises in the sinews, flesh, blood, etc., throughout the body, like the air in a rubber ball.

The element of stiffening is the air element, known as //vayo-dhatu//. The body is kept in an erect position by the air element in the form of stiffening, which is continually coming into existence. At the time of sleepiness or drowsiness, one may drop flat because the supply of new materials in the form of stiffening is cut off. The state of mind in heavy drowsiness or sleep is //bhavanga//, the "life-continuum" or passive subconscious flow. During the course of bhavanga, mental activities are absent, and for this reason, the body lies flat during sleep or heavy drowsiness.

During waking hours, strong and alert mental activities are continually arising, and because of these the air element arises serially in the form of stiffening. In order to know these facts, it is essential to note the bodily posture attentively as "sitting, sitting, sitting." This does not necessarily mean that the body impression of stiffening should particularly be searched for and

noted. Attention need only be fixed on the whole form of the sitting posture, that is, the lower portion of the body in a bent circular form and the upper portion held erect.

It may be found that the exercise of observing the mere sitting posture is too easy and does not require much effort. In these circumstances, energy (//viriya//) is less and concentration (//samadhi//) is in excess. One will generally feel lazy and will not want to carry on the noting as "sitting, sitting, sitting" repeatedly for a considerable length of time. Laziness generally occurs when there is an excess of concentration and not enough energy. It is nothing but a state of sloth and torpor (//thina-middha//).

More energy should be developed, and for this purpose, the number of objects for noting should be increased. After noting as "sitting," the attention should be directed to a spot in the body where the sense of touch is felt and a note made as "touching." Any spot in the leg or hand or hip where a sense of touch is distinctly felt will serve the purpose. For example, after noting the sitting posture of the body as "sitting," the spot where the sense of touch is felt should be noted as "touching." The noting should thus be repeated using these two objects of //the sitting posture// and //the place of touching// alternately, as "sitting, touching, sitting, touching, sitting, touching."

The terms "noting," "observing" and "contemplating" are used here to indicate the fixing of attention on an object. The exercise is simply to note or observe or contemplate as "sitting, touching." Those who already have experience in the practice of meditation may find this exercise easy to begin with, but those without any previous experience may at first find it rather difficult.

//Rising-Falling//

A simpler and easier form of the exercise for a beginner is this: With every breath there occurs in the abdomen a rising-falling movement. A beginner should start with the exercise of noting this movement. This rising-falling movement is easy to observe because it is coarse and

therefore more suitable for the beginner. As in schools where simple lessons are easy to learn, so also is the practice of vipassana meditation. A beginner will find it easier to develop concentration and knowledge with a simple and easy exercise.

Again, the purport of vipassana meditation is to begin the exercise by contemplating prominent factors in the body. Of the two factors of mentality and materiality, the former is subtle and less prominent, while the latter is coarse and more prominent. At the outset, therefore, the usual procedure for an insight meditator is to begin the exercise by contemplating the material elements.

With regard to materiality, it may be mentioned here that derived materiality (//upada-rupa//) is subtle and less prominent, while the four primary physical elements (//maha-bhuta-rupa//) -- earth, water, fire and air -- are coarse and more prominent. The latter should therefore have priority in the order of objects for contemplation. In the case of rising-falling, the outstanding factor is the air element, or //vayo-dhatu//. The process of stiffening and the movements of the abdomen noticed during the contemplation are nothing but the functions of the air element. Thus it will be seen that the air element is perceptible at the beginning.

According to the instructions of the Satipatthana Sutta, one should be mindful of the activities of walking while walking, of those of standing, sitting and lying down while standing, sitting and lying down, respectively. One should also be mindful of other bodily activities as each of them occurs. In this connection, it is stated in the commentaries that one should be mindful primarily of the air element, in preference to the other three elements. As a matter of fact, all four primary elements are dominant in every action of the body, and it is essential to perceive any one of them. At the time of sitting, either of the two movements of rising and falling occurs conspicuously with every breath, and a beginning should be made by noting these movements.

Some fundamental features in the system of vipassana meditation have been explained for general information. The general outline of basic

exercises will now be dealt with.

//Outline of Basic Exercises//

When contemplating rising and falling, the disciple should keep his mind on the abdomen. He will then come to know the upward movement or expansion of the abdomen on breathing in, and the downward movement or contraction on breathing out. A mental note should be made as "rising" for the upward movement and "falling" for the downward movement. If these movements are not clearly noticed by simply fixing the mind on them, one or both hands should be placed on the abdomen.

The disciple should not try to change the manner of his natural breathing. He should neither attempt slow breathing by the retention of his breath, nor quick breathing or deep breathing. If he does change the natural flow of his breathing, he will soon tire himself. He must therefore keep to the natural rate of his breathing and proceed with the contemplation of rising and falling.

On the occurrence of the upward movement of the abdomen, the mental note of "rising" should be made, and on the downward movement of the abdomen, the mental note of "falling" should be made. The mental notation of these terms should not be vocalized. In vipassana meditation, it is more important to know the object than to know it by a term or name. It is therefore necessary for the disciple to make every effort to be mindful of the movement of rising from its beginning to its end and that of falling from its beginning to its end, as if these movements are actually seen with the eyes. As soon as rising occurs, there should be the knowing mind close to the movement, as in the case of a stone hitting a wall. The movement of rising as it occurs and the mind knowing it must come together on every occasion. Similarly, the movement of falling as it occurs and the mind knowing it must come together on every occasion.

When there is no other conspicuous object, the disciple should carry on the exercise of noting these two movements as "rising, falling, rising, falling, rising, falling." While thus being occupied with this exercise, there may be occasions when the mind wanders about. When

concentration is weak, it is very difficult to control the mind. Though it is directed to the movements of rising and falling, the mind will not stay with them but will wander to other places. This wandering mind should not be let alone. It should be noted as "wandering, wandering, wandering" as soon as it is noticed that it is wandering. On noting once or twice the mind usually stops wandering, then the exercise of noting "rising, falling" should be continued. When it is again found that the mind has reached a place, it should be noted as "reaching, reaching, reaching." Then the exercise of noting "rising, falling" should be reverted to as soon as these movements are clear.

On meeting with a person in the imagination, it should be noted as "meeting, meeting," after which the usual exercise should be reverted to. Sometimes the fact that it is mere imagination is discovered when one speaks with that imaginary person, and it should then be noted as "speaking,speaking." The real purport is to note every mental activity as it occurs. For instance, it should be noted as "thinking" at the moment of thinking, and as "reflecting," "planning," "knowing," "attending," rejoicing," "feeling lazy," "feeling happy," "disgusted," etc., as the case may be, on the occurrence of each activity. The contemplation of mental activities and noticing them is called //cittanupassana//, contemplation of mind.

Because people have no practical knowledge in vipassana meditation, they are generally not in a position to know the real state of the mind. This naturally leads them to the wrong view of holding mind to be "person," "self," "living entity." They usually believe that "imagination is I," "I am thinking, " "I am planning," "I am knowing," and so forth. They hold that there exists a living entity or self which grows up from childhood to adulthood. In reality, such a living entity does not exist, but there does exist a continuous process of elements of mind which occur singly, one at a time, in succession. The practice of contemplation is therefore being carried out with the aim of discovering the true nature of this mind-body complex.

As regards the mind and the manner of its arising, the Buddha stated in the Dhammapada (v.37):

//Durangamam ekacaram
asariram guhasayam
ye cittam sannamessanti
mokkhanti marabandhana.//

Faring far, wandering alone,
Formless and lying in a cave.
Those who do restrain the mind
Are sure released from Mara's bonds.

//Faring far//. Mind usually wanders far and wide. While the yogi is trying to carry on with the practice of contemplation in his meditation room, he often finds that his mind has wandered to many far-off places, towns, etc. He also finds that his mind can wander to any of the far-off places which he has previously known at the very moment of thinking or imagining. This fact is discovered with the help of contemplation.

//Alone//. Mind occurs singly, moment to moment in succession. Those who do not perceive the reality of this believe that one mind exists in the course of life or existence. They do not know that new minds are always arising at every moment. They think that the seeing, hearing, smelling, tasting, touching and thinking of the past and of the present belong to one and the same mind, and that three or four acts of seeing, hearing, touching, knowing usually occur simultaneously.

These are wrong views. In reality, single moments of mind arise and pass away continuously, one after another. This can be perceived on gaining considerable practice. The cases of imagination and planning are clearly perceptible. Imagination passes away as soon as it is noted as "imagining, imagining," and planning also passes away as soon as it is noted as "planning, planning." These instances of arising, noting and passing away appear like a string of beads. The preceding mind is not the following mind. Each is separate. These characteristics of reality are personally perceptible, and for this

purpose one must proceed with the practice of contemplation.

//Formless//. Mind has no substance, no form. It is not easy to distinguish as is the case with materiality. In the case of materiality, the body, head, hands and legs are very prominent and are easily noticed. If it is asked what matter is, matter can be handled and shown. Mind, however, is not easy to describe because it has no substance or form. For this reason, it is not possible to carry out analytical laboratory experiments on the mind.

One can, however, fully understand the mind if it is explained as //that which knows an object//. To understand the mind, it is necessary to contemplate the mind at every moment of its occurrence. When contemplation is fairly advanced, the mind's approach to its object is clearly comprehended. It appears as if each moment of mind is making a direct leap towards it object. In order to know the true nature of the mind, contemplation is thus prescribed.

//Lying in a cave//. Because the mind comes into being depending on the mind-base and the other sense doors situated in the body, it is said that it rests in a cave.

//Those who do restrain the mind are sure released from Mara's bonds//. It is said that the mind should be contemplated at each moment of its occurrence. The mind can thus be controlled by means of contemplation. On his successful controlling of the mind, the yogi will win freedom from the bondage of Mara, the King of Death. It will now be seen that it is important to note the mind at every moment of its occurrence. As soon as it is noted, the mind passes away. For instance, by noting once or twice as "intending, intending," it is found that intention passes away at once. Then the usual exercise of noting as "rising, falling, rising, falling" should be reverted to.

While one is proceeding with the usual exercise, one may feel that one wants to swallow saliva. It should be noted as "wanting," and on

gathering saliva as "gathering," and on swallowing as "swallowing," in the serial order of occurrence. The reason for contemplation in this case is because there may be a persisting personal view as "wanting to swallow is I," "swallowing is also I." In reality, "wanting to swallow" is mentality and not "I," and "swallowing" is materiality and not "I." There exist only mentality and materiality at that moment. By means of contemplating in this manner, one will understand clearly the process of reality. So too, in the case of spitting, it should be noted as "wanting" when one wants to spit, as "bending" on bending the neck (which should be done slowly), as "looking, seeing" on looking and as "spitting" on spitting. Afterwards, the usual exercise of noting "rising, falling" should be continued.

Because of sitting for a long time, there will arise in the body unpleasant feeling of being stiff, being hot and so forth. These sensations should be noted as they occur. The mind should be fixed on that spot and a note made as "stiff, stiff" on feeling stiff, as "hot, hot" on feeling hot, as "painful, painful" on feeling painful, as "prickly, prickly" on feeling prickly sensations, and as "tired, tired" on feeling tired. These unpleasant feelings are //dukkha-vedana// and the contemplation of these feeling is //vedananupassana//, contemplation of feeling.

Owing to the absence of knowledge in respect of these feelings, there persists the wrong view of holding them as one's own personality or self, that is to say, "I am feeling stiff," "I am feeling painful," "I was feeling well formerly but I now feel uncomfortable," in the manner of a single self. In reality, unpleasant feelings arise owing to disagreeable impressions in the body. Like the light of an electric bulb which can continue to burn on a continuous supply of energy, so it is in the case of feelings, which arise anew on every occasion of coming in contact with disagreeable impressions.

It is essential to understand these feelings clearly. At the beginning of noting as "stiff, stiff," "hot, hot," "painful, painful," one may feel that such disagreeable feelings grow stronger, and then one will notice that a mind wanting to change the posture arises. This mind should be noted as "wanting, wanting." Then a return should be made to

the feeling and it should be noted as "stiff, stiff" or "hot, hot," and so forth. If one proceeds in this manner of contemplation with great patience, unpleasant feelings will pass away.

There is a saying that patience leads to Nibbana. Evidently this saying is more applicable in the case of contemplation than in any other. Plenty of patience is needed in contemplation. If a yogi cannot bear unpleasant feelings with patience, but frequently changes his posture during contemplation, he cannot expect to gain concentration. Without concentration there is no chance of acquiring insight knowledge (//vipassana-nana//) and without insight knowledge the attainment of the path, fruition and Nibbana cannot be won.

Patience is of great importance in contemplation. Patience is needed mostly to bear unpleasant bodily feelings. There is hardly any case of outside disturbances where it is necessary to exercise patience. This means the observance of //khantisamvara//, restraint by patience. The posture should not be immediately changed when unpleasant sensations arise, but contemplation should be continued by noting them as "stiff, stiff," "hot, hot," and so on. Such painful sensations are normal and will pass away. In the case of strong concentration, it will be found that great pains will pass away when they are noted with patience. On the fading away of suffering or pain, the usual exercise of noting "rising, falling" should be continued.

On the other hand, it may be found that pains or unpleasant feelings do not immediately pass away even when one notes them with great patience. In such a case, one has no alternative but to change posture. One must, of course, submit to superior forces. When concentration is not strong enough, strong pains will not pass away quickly. In these circumstances there will often arise a mind wanting to change posture, and this mind should be noted as "wanting, wanting." After this, one should note "lifting, lifting" on moving it forward.

These bodily actions should be carried out slowly, and these slow movements should be followed up and noted as "lifting, lifting," "moving, moving," "touching, touching," in the successive order of the

process. Again, on moving one should note "moving, moving," and on putting down, note "putting, putting." If, when this process of changing posture has been completed, there is nothing more to be noted, the usual exercise of noting "rising, falling" should be continued.

There should be no stop or break in between. The preceding act of noting and the one which follows should be contiguous. Similarly, the preceding concentration and the one which follows should be contiguous, and the preceding act of knowing and the one which follows should be contiguous. In this way, the gradual development by stages of mindfulness, concentration and knowledge takes place, and depending on their full development, the final stage of path-knowledge is attained.

In the practice of vipassana meditation, it is important to follow the example of a person who tries to make fire. To make a fire in the days before matches, a person had to constantly rub two sticks together without the slightest break in motion. As the sticks became hotter and hotter, more effort was needed, and the rubbing had to be carried out incessantly. Only when the fire had been produced was the person at liberty to take a rest. Similarly, a yogi should work hard so that there is no break between the preceding noting and the one which follows, and the preceding concentration and the one which follows. He should revert to his usual exercise of noting "rising, falling" after he has noted painful sensations.

While being thus occupied with his usual exercise, he may again feel itching sensations somewhere in the body. He should then fix his mind on the spot and make a note as "itching, itching." Itching is an unpleasant sensation. As soon as it is felt, there arises a mind which wants to rub or scratch. This mind should be noted as "wanting, wanting," after which no rubbing or scratching must be done as yet, but a return should be made to the itching and a note made as "itching, itching." While one is occupied with contemplation in this manner, itching in most cases passes away and the usual exercise of noting "rising, falling" should then be reverted to.

If, on the other hand, it is found that itching does not pass away, but that it is necessary to rub or scratch, the contemplation of the successive stages should be carried out by noting the mind as "wanting, wanting." It should then be continued by noting "raising, raising" on raising the hand, "touching, touching" when the hand touches the spot, "rubbing, rubbing" or "scratching, scratching" when the hand rubs or scratches, "withdrawing, withdrawing" on withdrawing the hand, "touching, touching" when the hand touches the body, and then the usual contemplation of "rising, falling" should be continued. In every case of changing postures, contemplation of the successive stages should be carried out similarly and carefully.

While thus carefully proceeding with the contemplation, one may find that painful feelings or unpleasant sensations arise in the body of their own accord. Ordinarily, people change their posture as soon as they feel even the slightest unpleasant sensation of tiredness or heat without taking heed of these incidents. The change of posture is carried out quite heedlessly just while the seed of pain is beginning to grow. Thus painful feelings fail to take place in a distinctive manner. For this reason it is said that, as a rule, the postures hide painful feelings from view. People generally think that they are feeling well for days and nights on end. They think that painful feelings occur only at the time of an attack of a dangerous disease.

Reality is just the opposite of what people think. Let anyone try to see how long he can keep himself in a sitting posture without moving or changing it. One will find it uncomfortable after a short while, say five or ten minutes, and then one will begin to find it unbearable after fifteen or twenty minutes. One will then be compelled to move or change one's posture by either raising or lowering the head, moving the hands or legs, or by swaying the body either forward or backward. Many movements usually take place during a short time, and the number would be very large if they were to be counted for the length of just one day. However, no one appears to be aware of this fact because no one takes any heed.

Such is the order in every case, while in the case of a yogi who is always mindful of his actions and who is proceeding with

contemplation, body impressions in their own respective nature are therefore distinctly noticed. They cannot help but reveal themselves fully in their own nature because he is watching until they come to full view.

Though a painful sensation arises, he keeps on noting it. He does not ordinarily attempt to change his posture or move. Then on the arising of mind wanting to change, he at once makes a note of it as "wanting, wanting," and afterwards he returns again to the painful sensation and continues his noting of it. He changes his posture or moves only when he finds the painful feeling unbearable. In this case he also begins by noting the wanting mind and proceeds with noting carefully each stage in the process of moving. This is why the postures can no longer hide painful sensations. Often a yogi finds painful sensations creeping from here and there or he may feel hot sensations, aching sensations, itching, or the whole body as a mass of painful sensations. That is how painful sensations are found to be predominant because the postures cannot cover them.

If he intends to change his posture from sitting to standing, he should first make a note of the intending mind as "intending, intending," and proceed with the arranging of the hands and legs in the successive stages by noting as "raising," "moving," "stretching," "touching," "pressing," and so forth. When the body sways forward, it should be noted as "swaying, swaying." While in the course of standing up, there occurs in the body a feeling of lightness as well as the act of rising. Attention should be fixed on these factors and a note made as "rising, rising." The act of rising should be carried out slowly.

During the course of practice it is most appropriate if a yogi acts feebly and slowly in all activities just like a weak, sick person. Perhaps the case of a person suffering from lumbago would be a more fitting example here. The patient must always be cautious and move slowly just to avoid pains. In the same manner a yogi should always try to keep to slow movements in all actions. Slow motion is necessary to enable mindfulness, concentration and knowledge to catch up. One has lived all the time in a careless manner and one just begins seriously to train oneself in keeping the mind within the body. It is

only the beginning, and one's mindfulness, concentration and knowledge have not yet been properly geared up while the physical and mental processes are moving at top speed. It is thus imperative to bring the top-level speed of these processes to the lowest gear so as to make it possible for mindfulness and knowledge to keep pace with them. It is therefore desirable that slow motion exercises be carried out at all times.

Further, it is advisable for a yogi to behave like a blind person throughout the course of training. A person without any restraint will not look dignified because he usually looks at things and persons wantonly. He also cannot obtain a steady and calm state of mind. The blind person, on the other hand, behaves in a composed manner by sitting sedately with downcast eyes. He never turns in any direction to look at things or persons because he is blind and cannot see them. Even if a person comes near him and speaks to him, he never turns around and looks at that person. This composed manner is worthy of imitation. A yogi should act in the same manner while carrying out the practice of contemplation. He should not look anywhere. His mind should be solely intent on the object of contemplation. While in the sitting posture he must be intently noting "rising, falling." Even if strange things occur nearby, he should not look at them. He must simply make a note as "seeing, seeing" and then continue with the usual exercise of noting "rising, falling." A yogi should have a high regard for this exercise and carry it out with due respect, so much so as to be mistaken for a blind person.

In this respect certain girl-yogis were found to be in perfect form. They carefully carried out the exercise with all due respect in accordance with the instructions. Their manner was very composed and they were always intent on their objects of contemplation. They never looked round. When they walked, they were always intent on the steps. Their steps were light, smooth and slow. Every yogi should follow their example.

It is necessary for a yogi to behave like a deaf person also. Ordinarily, as soon as a person hears a sound, he turns around and looks in the direction from which the sound came, or he turns towards

the person who spoke to him and makes a reply. He does not behave in a sedate manner. A deaf person, on the other hand, behaves in a composed manner. He does not take heed of any sound or talk because he never hears them. Similarly, a yogi should conduct himself in like manner without taking heed of any unimportant talk, nor should he deliberately listen to any talk or speech. If he happens to hear any sound or speech, he should at once make a note as "hearing, hearing," and then return to the usual practice of noting "rising, falling." He should proceed with his contemplation intently, so much so as to be mistaken for a deaf person.

It should be remembered that the //only// concern of a yogi is the carrying out intently of contemplation. Other things seen or heard are not his concern. Even though they may appear to be strange or interesting, he should not take heed of them. When he sees any sights, he must ignore them as if he does not see. So too, he must ignore voices or sounds as if he does not hear. In the case of bodily actions, he must act slowly and feebly as if he were sick and very weak.

//Other Exercises//

//Walking//

It is therefore to be emphasized that the act of pulling up the body to the standing posture should be carried out slowly. On coming to an erect position, a note should be made as "standing, standing." If one happens to look around, a note should be made as "looking, seeing," and on walking each step should be noted as "right step, left step" or "walking, walking." At each step, attention should be fixed on the sole of the foot as it moves from the point of lifting the leg to the point of placing it down.

While walking in quick steps or taking a long walk, a note on one section of each step as "right step, left step" or "walking, walking" will do. In the case of walking slowly, each step may be divided into three sections -- lifting, moving forward and placing down. In the

beginning of the exercise, a note should be made of the two parts of each step: as "lifting" by fixing the attention on the upward movement of the foot from the beginning to the end, and as "placing" by fixing on the downward movement from the beginning to the end. Thus the exercise which starts with the first step by noting as "lifting, placing" now ends.

Normally, when the foot is put down and is being noted as "placing," the other leg begins lifting to begin the next step. This should not be allowed to happen. The next step should begin only after the first step has been completed, such as "lifting, placing" for the first step and "lifting, placing" for the second step. After two or three days this exercise will be easy, and then the yogi should carry out the exercise of noting each step in three sections as "lifting, moving, placing." For the present a yogi should start the exercise by noting as "right step, left step," or "walking, walking" while walking quickly, and by noting as "lifting, placing" while walking slowly.

//Sitting//

While one is walking, one may feel the desire to sit down. One should then make a note as "wanting." If one then happens to look up, note it as "looking, seeing, looking, seeing"; on going to the seat as "lifting, placing"; on stopping as "stopping, stopping"; on turning as "turning, turning." When one feels a desire to sit, note it as "wanting, wanting." In the act of sitting there occur in the body heaviness and also a downward pull. Attention should be fixed on these factors and a note made as "sitting, sitting, sitting." After having sat down there will be movements of bringing the hands and legs into position. They should be noted as "moving," "bending," "stretching," and so forth. If there is nothing to do and if one is sitting quietly, one should then revert to the usual exercise of noting as "rising, falling."

//Lying Down//

If in the course of contemplation one feels painful or tired or hot, one should make a note of these and then revert to the usual exercise

of noting "rising, falling." If one feels sleepy, one should make a note of it as "sleepy, sleepy" and proceed with the noting of all acts in preparation to lie down: note the bringing into position of the hands and legs as "raising," "pressing," "moving," "supporting"; when the body sways as "swaying, swaying"; when the legs stretch as "stretching, stretching"; and when the body drops and lies flat as "lying, lying, lying."

These trifling acts in lying down are also important and they should not be neglected. There is every possibility of attaining enlightenment during this short time. On the full development of concentration and knowledge, enlightenment is attainable during the present moment of bending or stretching. In this way the Venerable Ananda attained Arahatship at the very moment of lying down.

About the beginning of the fourth month after the Buddha's complete passing away, arrangements were made to hold the first council of bhikkhus to collectively classify, examine, confirm and recite all the teachings of the Buddha. At that time five hundred bhikkhus were chosen for this work. Of these bhikkhus, four hundred and ninety-nine were Arahats, while the Venerable Ananda was a //sotapanna//, a stream-enterer.

In order to attend the council as an Arahat on the same level with the others, he made his utmost effort to carry on with his meditation on the day prior to the opening of the council. That was on the fourth of the waning moon of the month of Savana (August). He proceeded with mindfulness of the body and continued his walking meditation throughout the night. It might have been in the same manner as noting "right step, left step" or "walking, walking." He was thus occupied with intense contemplation of the processes of mentality and materiality in each step until dawn of the following day, but he still had not yet attained to Arahatship.

Then the Venerable Ananda thought: "I have done my utmost. Lord Buddha has said: 'Ananda, you possess full perfections (//paramis//). Do proceed with the practice of meditation. You will surely attain Arahatship one day.' I have tried my best, so much so that I can be

counted as one of those who have done their best in meditation. What maybe the reason for my failure?"

Then he remembered: "Ah! I have been overzealous in keeping solely to the practice of walking throughout the night. There is an excess of energy and not enough concentration, which indeed is responsible for this state of restlessness. It is now necessary to stop walking practice so as to bring energy in balance with concentration and to proceed with the contemplation in a lying position." The Venerable Ananda then entered his room, sat down on his bed, and began to lie down. It is said that he attained Arahatship at the very moment of lying down, or rather at the moment of contemplating as "lying, lying."

This manner of attaining Arahatship has been recorded as a strange event in the Commentaries, because it is outside the four regular postures of standing, sitting, lying and walking. At the moment of his enlightenment, the Venerable Ananda could not be regarded as strictly in a standing posture because his feet were off the floor, nor could he be regarded as sitting because his body was already at an angle, being quite close to the pillow, nor could he be regarded as lying down since his head had not yet touched the pillow and his body was not yet flat.

The Venerable Ananda was a stream-enterer and he thus had to develop the three other higher stages -- the path and fruit of once-returning, the path and fruit of non-returning, and the path and fruit of Arahatship in his final attainment. This took only a moment. Extreme care is therefore needed to carry on the practice of contemplation without relaxation or omission.

In the act of lying down, contemplation should therefore be carried out with due care. When a yogi feels sleepy and wants to lie down, a note should be made as "sleepy, sleepy," "wanting, wanting"; on raising the hand as "raising, raising"; on stretching as "stretching, stretching"; on touching as "touching, touching"; on pressing as "pressing, pressing"; after swaying the body and dropping it down as "lying, lying." The act of lying down itself should be carried out

very slowly. On touching the pillow it should be noted as "touching, touching." There are many places of touch all over the body but each spot need be noted only one at a time.

In the lying posture there are also many movements of the body in bringing one's arms and legs into position. These actions should be noted carefully as "raising," "stretching," "bending," "moving," and so forth. On turning the body a note should be made as "turning, turning," and when there is nothing in particular to be noted, the yogi should proceed with the usual practice of noting "rising, falling." While one is lying on one's back or side, there is usually nothing in particular to be noted and the usual exercise of "rising, falling" should be carried out.

There may be many times when the mind wanders while one is in the lying posture. This wandering mind should be noted as "going, going" when it goes out, as "arriving, arriving" when it reaches a place, as "planning," "reflecting," and so forth for each state in the same manner as in the contemplation while in the sitting posture. Mental states pass away on being noted once or twice. The usual exercise of noting "rising, falling" should be continued. There may also be instances of swallowing or spitting saliva, painful sensations, hot sensations, itching sensations, etc., or of bodily actions in changing positions or in moving the limbs. They should be contemplated as each occurs. (When sufficient strength in concentration is gained, it will be possible to carry on with the contemplation of each act of opening and closing the eyelids and blinking.) Afterwards, one should then return to the usual exercise when there is nothing else to be noted.

//Sleep//

Though it is late at night and time for sleep, it is not advisable to give up the contemplation and go to sleep. Anyone who has a keen interest in contemplation must be prepared to face the risk of spending many nights without sleep.

The scriptures are emphatic on the necessity of developing the qualities of four-factored energy (//caturanga-viriya//) in the

practice of meditation: "In the hard struggle, one may be reduced to a mere skeleton of skin, bones and sinews when one's flesh and blood wither and dry up, but one should not give up one's efforts so long as one has not attained whatever is attainable by manly perseverance, energy and endeavor." These instructions should be followed with a strong determination. It may be possible to keep awake if there is strong enough concentration to beat off sleep, but one will fall asleep if sleep gets the upper hand.

When one feels sleepy, one should make a note of it as "sleepy, sleepy"; when the eyelids are heavy as "heavy, heavy"; when the eyes are felt to be dazzled as "dazzled, dazzled." After contemplating in the manner indicated, one may be able to shake off sleepiness and feel fresh again. This feeling should be noted as "feeling fresh, feeling fresh," after which the usual exercise of noting "rising, falling" should be continued. However, in spite of this determination, one may feel unable to keep awake if one is very sleepy. In a lying posture, it is easier to fall asleep. A beginner should therefore try to keep mostly to the postures of sitting and walking.

When the night is advanced, however, a yogi may be compelled to lie down and proceed with the contemplation of rising and falling. In this position he may perhaps fall asleep. While one is asleep, it is not possible to carry on with the work of contemplation. It is an interval for a yogi to relax. An hour's sleep will give him an hour's relaxation, and if he continues to sleep for two, three or four hours, he will be relaxed for that much longer, but it is not advisable for a yogi to sleep for more than four hours, which is ample enough for a normal sleep.

//Waking//

A yogi should begin his contemplation from the moment of awakening. To be fully occupied with intense contemplation throughout his waking hours is the routine of a yogi who works hard with true aspiration for the attainment of the path and fruit. If it is not possible to catch the moment of awakening, he should begin with the usual exercise of noting "rising, falling." If he first becomes aware of the fact of

reflecting, he should begin his contemplation by noting "reflecting, reflecting" and then revert to the usual exercise of noting "rising, falling." If he first becomes aware of hearing a voice or some other sound, he should begin by noting "hearing, hearing" and then revert to the usual exercise. On awakening there may be bodily movement in turning to this side or that, moving the hands or legs and so forth. These actions should be contemplated in successive order.

If he first becomes aware of the mental states leading to the various actions of body, he should begin his contemplation by noting the mind. If he first becomes aware of painful sensations, he should begin with the noting of these painful sensations and then proceed with the noting of bodily actions. If he remains quiet without moving, the usual exercise of noting "rising, falling" should be continued. If he intends to get up, he should note this as "intending, intending" and then proceed with the noting of all actions in serial order in bringing the hands and legs into position. One should note "raising, raising" on raising the body, "sitting, sitting" when the body is erect and in a sitting posture, and one should also note any other actions of bringing the legs and hands into position. If there is then nothing in particular to be noted, the usual exercise of noting "rising,falling" should be reverted to.

Thus far we have mentioned things relating to the objects of contemplation in connection with the four postures and changing from one posture to another. This is merely a description of the general outline of major objects of contemplation to be carried out in the course of practice. Yet in the beginning of the practice, it is difficult to follow up on all of them in the course of contemplation. Many things will be omitted, but on gaining sufficient strength in concentration, it is easy to follow up in the course of contemplation not only those objects already enumerated, but may many more. With the gradual development of mindfulness and concentration, the pace of knowledge quickens, and thus many more objects can be perceived. It is necessary to work up to this high level.

//Washing and Eating//

Contemplation should be carried out in washing the face in the morning or when taking a bath. As it is necessary to act quickly in such instances due to the nature of the action itself, contemplation should be carried out as far as these circumstances will allow. On stretching the hand to catch hold of the dipper, it should be noted as "stretching, stretching"; on catching hold of the dipper as "holding, holding"; on immersing the dipper as "dipping,dipping"; on bringing the dipper towards the body as "bringing, bringing"; on pouring the water over the body or on the face as "pouring, pouring"; on feeling cold as "cold, cold"; on rubbing as "rubbing, rubbing," and so forth.

There are also many different bodily actions in changing or arranging one's clothing, in arranging the bed or bed-sheets, in opening the door, and so on. These actions should be contemplated in detail serially as much as possible.

At the time of taking a meal, contemplation should begin from the moment of looking at the table and noted as "looking, seeing, looking, seeing"; when stretching the hand to the plate as "stretching, stretching"; when the hand touches the food as "touching, hot, hot"; when gathering the food as "gathering, gathering"; when catching hold of the food as "catching, catching"; after lifting when the hand is being brought up as "bringing, bringing"; when the neck is being bent down as "bending, bending"; when the food is being placed in the mouth as "placing, placing"; when withdrawing the hand as "withdrawing, withdrawing"; when the hand touches the plate as "touching, touching"; when the neck is being straightened as "straightening, straightening"; when chewing the food as "chewing, chewing"; while tasting the food as "tasting, tasting," when one likes the taste as "liking, liking"; when one finds it pleasant as "pleasant, pleasant"; when swallowing as "swallowing, swallowing."

This is an illustration of the routine of contemplation on partaking of each morsel of food till the meal is finished. In this case too it is difficult to follow up on all actions at the beginning of the practice. There will be many omissions. Yogis should not hesitate, however, but must try to follow up as much as they can. With the gradual advancement of the practice, it will be easier to note many

more objects than are mentioned here.

The instructions for the practical exercise of contemplation are now almost complete. As they have been explained in detail and at some length, it will not be easy to remember all of them. For the sake of easy remembrance, a short summary of the important and essential points will be given.

//Summary of Essential Points//

In walking, a yogi should contemplate the movements of each step. While one is walking briskly, each step should be noted as "right step, left step" respectively. The mind should be fixed intently on the sole of the foot in the movements of each step. While one is in the course of walking slowly, each step should be noted in two parts as "lifting, placing." While one is in a sitting posture, the usual exercise of contemplation should be carried out by noting the movements of the abdomen as "rising, falling, rising, falling." The same manner of contemplation by noting the movements as "rising, falling, rising, falling" should be carried out while one is also in the lying posture.

If it is found that the mind wanders during the course of noting "rising, falling," it should not be allowed to continue to wander but should be noted immediately. On imagining, it should be noted as "imagining, imagining"; on thinking as "thinking, thinking"; on the mind going out as "going, going"; on the mind arriving at a place as "arriving, arriving," and so forth at every occurrence, and then the usual exercise of noting "rising, falling" should be continued.

When there occur feelings of tiredness in the hands, legs or other limbs, or hot, prickly, aching or itching sensations, they should be immediately followed up and noted as "tired," "hot," "prickly," "aching," "itching," and so on as the case may be. A return should then be made to the usual exercise of noting "rising, falling."

When there are acts of bending or stretching the hands or legs, or moving the neck or limbs or swaying the body to and fro, they should be followed up and noted in serial order as they occur. The usual exercise of noting as "rising, falling" should then be reverted to.

This is only a summary. Any other objects to be contemplated in the course of training will be mentioned by the meditation teachers when giving instructions during the daily interview with the disciples.

If one proceeds with the practice in the manner indicated, the number of objects will gradually increase in the course of time. At first there will be many omissions because the mind is used to wandering without any restraint whatsoever. However, a yogi should not lose heart on this account. This difficulty is usually encountered in the beginning of practice. After some time, the mind can no longer play truant because it is always found out every time it wanders. It therefore remains fixed on the object to which it is directed.

As rising occurs the mind makes a note of it, and thus the object and the mind coincide. As falling occurs the mind makes a note of it, and thus the object and the mind coincide. There is always a pair, the object and the mind which knows the object, at each time of noting. These two elements of the material object and the knowing mind always arise in pairs, and apart from these two there does not exist any other thing in the form of a person or self. This reality will be personally realized in due course.

The fact that materiality and mentality are two distinct, separate things will be clearly perceived during the time of noting "rising, falling." The two elements of materiality and mentality are linked up in pairs and their arising coincides, that is, the process of materiality in rising arises with the process of mentality which knows it. The process of materiality in falling falls away together with the process of mentality which knows it. It is the same for lifting, moving and placing: these are processes of materiality arising and falling away together with the processes of mentality which know them. This knowledge in respect of matter and mind rising separately is known as //nama-rupa-pariccheda-nana//, the discriminating knowledge

of mentality-materiality. It is the preliminary stage in the whole course of insight knowledge. It is important to have this preliminary stage developed in a proper manner.

On continuing the practice of contemplation for some time, there will be considerable progress in mindfulness and concentration. At this high level it will be perceptible that on every occasion of noting, each process arises and passes away at that very moment. But, on the other hand, uninstructed people generally consider that the body and mind remain in a permanent state throughout life, that the same body of childhood has grown up into adulthood, that the same young mind has grown up into maturity, and that both body and mind are one and the same person. In reality, this is not so. Nothing is permanent. Everything comes into existence for a moment and then passes away. Nothing can remain even for the blink of an eye. Changes are taking place very swiftly and they will be perceived in due course.

While carrying on the contemplation by noting "rising, falling" and so forth, one will perceive that these processes arise and pass away one after another in quick succession. On perceiving that everything passes away at the very point of noting, a yogi knows that nothing is permanent. This knowledge regarding the impermanent nature of things is //aniccanupassana-nana//, the contemplative knowledge of impermanence.

A yogi then knows that this ever-changing state of things is distressing and is not to be desired. This is //dukkhanupassana-nana//, the contemplative knowledge of suffering. On suffering many painful feelings, this body and mind complex is regarded as a mere heap of suffering. This is also contemplative knowledge of suffering.

It is then perceived that the elements of materiality and mentality never follow one's wish, but arise according to their own nature and conditioning. While being engaged in the act of noting these processes, a yogi understands that these processes are not controllable and that they are neither a person nor a living entity nor self. This is //anattanupassana-nana//, the contemplative

knowledge of non-self.

When a yogi has fully developed the knowledge of impermanence, suffering and non-self, he will realize Nibbana. From time immemorial, Buddhas, Arahats and Ariyas (noble ones) have realized Nibbana by this method of vipassana. It is the highway leading to Nibbana. Vipassana consists of the four //satipatthana//, applications of mindfulness, and it is //satipatthana// which is really the highway to Nibbana.

Yogis who take up this course of training should bear in mind that they are on the highway which has been taken by Buddhas, Arahats and Ariyas. This opportunity is afforded them apparently because of their //parami//, that is, their previous endeavors in seeking and wishing for it, and also because of their present mature conditions. They should rejoice at heart for having this opportunity. They should also feel assured that by walking on this highway without wavering they will gain personal experience of highly developed concentration and wisdom, as has already been known by Buddhas, Arahats and Ariyas. They will develop such a pure state of concentration as has never been known before in the course of their lives and thus enjoy many innocent pleasures as a result of advanced concentration.

Impermanence, suffering and non-self will be realized through direct personal experience, and with the full development of these knowledges, Nibbana will be realized. It will not take long to achieve the objective, possibly one month, or twenty days, or fifteen days, or, on rare occasions, even in seven days for those select few with extraordinary //parami//.

Yogis should therefore proceed with the practice of contemplation in great earnestness and with full confidence, trusting that it will surely lead to the development of the noble path and fruit and to the realization of Nibbana. They will then be free from the wrong view of self and from spiritual doubt, and they will no longer be subject to the round of rebirth in the miserable realms of the hells, the animal world, and the sphere of petas.

May yogis meet with every success in their noble endeavor.

ABOUT THE AUTHOR

The Venerable Mahasi Sayadaw, U Sobhana Mahathera, was one of the most eminent meditation masters of modern times and a leader in the contemporary resurgence of Vipassana meditation. Born near Shwebo town in Burma in 1904, he was ordained a novice monk at the age of twelve and received full ordination as a bhikkhu at the age of twenty. He quickly distinguished himself as a scholar of the Buddhist scriptures and by his fifth year after full ordination was himself teaching the scriptures at a monastery in Moulmein.

In the eighth year after ordination he left Moulmein seeking a clear and effective method in the practice of meditation. At Thaton he met the well-known meditation instructor, the Venerable U Narada, also known as the Mingun Jetawun Sayadaw. He then placed himself under the guidance of the Sayadaw and underwent intensive training in Vipassana meditation.

In 1941 he returned to his native village and introduced the systematic practice of Vipassana meditation to the area. Many people, monks as well as laymen, took up the practice and greatly benefited by his careful instructions.

In 1949 the then Prime Minister of Burma, U Nu, and Sir U Thwin, executive members of the Buddha Sasananuggaha Association, invited Ven. Mahasi Sayadaw to come to Rangoon to give training in meditation practice. He acceded to their request and took up residence at the Thathana Yeiktha Meditation Centre, where he continued to conduct intensive courses in Vipassana meditation until his death in 1982.

Under his guidance thousands of people have been trained at his Centre

and many more have benefited from his clear-cut approach to meditation practice through his writings and the teachings of his disciples. More than a hundred branch centers of the Thathana Yeiktha Centre have been established in Burma and his method has spread widely to other countries, East and West.

Ven. Mahasi Sayadaw also holds Burma's highest scholastic honor, the title of Agga Mahapandita, awarded to him in 1952. During the Sixth Buddhist Council, held in Rangoon from 1954 to 1956, he performed the duties of Questioner (//pucchaka//), a role performed at the First Buddhist Council by the Venerable Mahakassapa. Ven. Mahasi Sayadaw was also a member of the executive committee that was responsible, as the final authority, for the codification of all the texts edited at the Council.

Ven. Mahasi Sayadaw is the author of numerous works on both meditation and the Buddhist scriptures in his native Burmese. His discourses on Buddhist suttas have been translated into English and are published by the Buddha Sasananuggaha Association (16 Hermitage Road, Kokine, Rangoon, Burma.)

THE BUDDHIST PUBLICATION SOCIETY

The BPS is an approved charity dedicated to making known the Teaching of the Buddha, which has a vital message for people of all creeds. Founded in 1958, the BPS has published a wide variety of books and booklets covering a great range of topics. Its publications include accurate annotated translations of the Buddha's discourses, standard reference works, as well as original contemporary expositions of Buddhist thought and practice. These works present Buddhism as it truly is -- a dynamic force which has influenced receptive minds for the past 2500 years and is still as relevant today as it was when it first arose. A full list of our publications will be sent upon request with an enclosure of U.S. $1.00 or its equivalent to cover air mail postage.

"I don't know," Kelly answered. "I thought I'd see what John's up to and hang out with him."

"I don't really have any plans," John said, inwardly pleased to hear what his sister had said,
to see what she was wearing. "Maybe I'll go down to the river for a while."

"That sounds like fun," Kelly said. "I haven't been down there in a while."

"Well, I'm off to play golf," Jason said, getting to his feet. "I'll see all of you later."

"You two help me clean up first," Karin said. "I assume you have a date tonight?" she asked

"Yup," Kelly said, nodding her head. "Jimmy Hastings."

"Well, don't forget your curfew," Karin said.

"I won't, mom," Kelly assured her. "I promise."

"I'm going to change, then we'll go," John said as they finished cleaning up from breakfast.

"Okay, I'll wait here," Kelly said, noticing that his eyes strayed to her chest yet again.

It was less than a mile to the river along a trail through the forest that bordered their house. T

"Right. Who says?" John asked, snorting in contempt.

"Well, I do," Kelly said, smiling at him. "And I'd know."

"Oh, how's that?" John asked, unable to avoid smiling.

"Because I'm dating all the best looking boys and none of them even come close to you," sh

"How come you always go out with someone different?" John asked.

"Why not!" Kelly said. "I'm not looking to only go out with one guy. I'm young. I want to see w

"Are they really all that different?" John asked.

"Oh, yes, they sure are," Kelly laughed. "No two alike."

"Not at all?" John asked.

"Well, they all want to fuck," Kelly said. "That's for sure. But then they're different there too."

"What!" John exclaimed, staring at her.

"Oh, you know," Kelly said, laying back down, her hands behind her head.

Now her shirt pulled up so that her nipples were exposed and John watched as they crinkled

"Talk about it!" John exclaimed. "What do you mean?"

"I don't have anyone to talk to about it," Kelly said. "You know, like how do you do this or do
those kind of things. If you were fucking my girlfriends we could compare notes."

"Jesus, Kelly," John said, shaking his head.

"Or if I knew some older guys that had more experience they could probably tell me how to d

her fiery red pubic hair just visible below the surface. "Besides, nobody's here, is there?"

"No, I guess not," John agreed, staring at her.

"And nobody's likely to come here, are they?" Kelly asked, her eyes on his growing bulge.

"Not likely," John agreed.

"Then come in the water with me," she said, "or I'll come out there and drag you in, clothes a

"You couldn't even if you tried," John laughed.

"But I'd try, and that's the thing, isn't it?" Kelly laughed, seeing the truth of what she said reg

"And I make your cock hard, don't I?" she asked, smiling at him.

"Yes, you do, most definitely," John agreed, grinning at her.

"Well, at least you can admit it," Kelly said, splashing him and then swimming for the bank.

She scrambled up the embankment and John was treated to the sight of her ass and pussy

off just leaving the water with Kelly, as she was laying on her back in the grass with her knee
apart, one hand between her legs rubbing her pussy. He watched for a second as she would
hole, then rub it around on her clit. He could clearly see her big puffy outer lips with her inne
protruding and flowering open, revealing her huge clit standing out almost a half an inch.

"God, Kelly," John exclaimed, his cock instantly rocketing to its full size.

"I thought you were still swimming," Kelly said, slamming her knees together and withdrawin

"Really?" John asked, flopping down on his stomach to hide his erection.

"Yeah, really," Kelly said, smiling at him. "You're huge."

"I wish you wouldn't talk like this," John said. "It's hard enough."

"I'll say," Kelly said with a laugh at his unintended pun. "You could make money with that thi

"Really! What do you mean?" Kelly asked.

"I'm sure men would pay through the nose to fuck you," John said.

"Do you really think so?" Kelly asked. "I mean, you think I'm that nice looking?"

"I told you, I think you're the most beautiful girl I've ever seen," John said.

"I thought you were just teasing me," Kelly said, staring at him. "You really mean that though

"Yup," John said.

They rested in silence for a while, enjoying the sun, before Kelly spoke up again.

"John, do you masturbate a lot?" she asked suddenly.

"Jesus, Kelly," John exclaimed, staring at her. "What kind of a question is that?"

"Well, do you?" she persisted.

"I don't know, what's a lot?" John asked.

"But you do masturbate then?" Kelly asked, staring at him.

"Well, yeah, I guess," John admitted, realizing how she had trapped him again. "Do you?"

"Oh, all the time," Kelly said. "I love the way it feels when I cum."

John said nothing as he stared at her. Kelly fidgeted, feeling her pussy tingle as she thought herself. She felt her nipples getting hard and could see by the expression on John's face tha also.

"See, all I have to do is think about it and I get excited," Kelly said, cupping her tits and gent her nipples briefly between her fingers. "So you think men would pay to fuck me?" she aske hands.

"Absolutely," John said nodding. "I bet I could get $1000."

"For what?" Kelly asked, staring at him, her mouth hanging open.

"To let some guy fuck you," John said.

"Is that how much it costs?" Kelly asked.

"I don't know," John admitted, shrugging his shoulders. "But I'd market you like an expensive really rich people could afford it, then $1000 wouldn't relatively be that much money to them they knew that you were still in high school. That would make it very special in terms of avai consuming market."

"You talk just like dad," Kelly laughed, leaning forward and shifting so that she was sitting In directly in front of John, not realizing how this exposed her pussy to his view.

"It's just good business sense," John said, uncomfortably aware of his cock getting hard und stared into his sister's wide open pussy. "You have something rare to sell and that makes it

expensive, therefore leaving the marketing to a very narrow niche: rich people."

"So who would you market me to?" Kelly asked, shocked that she was having this discussio

"God, John, how long have you been thinking about this?" Kelly asked, shocked by how det

"Just now," he admitted truthfully.

"But you wouldn't really do it, would you?" Kelly asked.

"Only if you wanted me to," he said. "And I'd take a cut."

"Oh, John, I can see it now," Kelly said with a laugh. "You become my manager and sell my
men and we both get rich."

"From a business standpoint it makes sense," he said, "more sense than just giving it away.

"I'm going swimming again," Kelly said, getting to her feet. "If you don't come with me I'll pull

"I'll come in," he said. "You go first."

With a laugh Kelly turned and ran down the embankment and dove into the river, surfacing i
his huge hard cock diving into the water behind her. Her head was spinning from what John
thinking of all that money just for sex that she'd be happy to do for free.

"Would you pay $1000 to fuck me, John?" she asked softly, swimming up to him.

"I don't have $1000 so it doesn't matter," he replied evasively.

"But what if you did?" Kelly persisted.

"I don't," John said, diving into the water and swimming back to the embankment.

"I just wanted to know if you thought I was worth $1000," Kelly said to his back as he exited

"I think you're probably worth as much money as someone can afford, as long as it's a lot," J
scrambled up the embankment.

"I guess that's a compliment," Kelly said, swimming over to the embankment.

John couldn't help staring at her as she came up the embankment, her big full tits with their
all hard and sticking out, the light tuft of red hair covering her pussy, her clit protruding from
pussy lips. He didn't even think about the fact that his cock grew to its full size, standing up i
him. Kelly stopped and stared at him, not believing how big and beautiful his cock seemed to
down to her knees in front of him.

"Oh, John, your cock is so gorgeous," she said, "and you're so horny. Are you going to mast
home?"

"I'd say so," he said, failing badly to cover himself with his hands, his face turning crimson.

"Oh, please do it now," Kelly begged him. "Do it for me so I can watch."

"You're crazy!" John said, his cock harder than ever.

"Oh, please," Kelly begged. "I'll let you watch me do it too. Please do it for me, John. If it's m

Kelly promised.

"You will?" John asked, surprised that that interested him.

"Yes, I promise," Kelly said eagerly, sensing his weakness. "I'll tell you everything in detail."

"Even if you...."

"Yes, cum, John, cum," Kelly said, frigging herself. "I want to see you cum."

"I'm going to cum," he said. "You'd better move if you don't want..."

But it was too late as a spurt of cum shot from his cock, hitting Kelly in the face next to her n

"God, Kelly," John sighed, shaking his head. "That was just unbelievable."

"We'd better get home," Kelly said suddenly. "It looks like you'll be able to walk now," she sa
his cock had relaxed substantially since he had cum.

She picked up her clothes and started off down the path naked, her ass swinging. John hurr

"Aren't you going to get dressed?" he asked.

"Why?" Kelly asked. "There's nobody here. I'll put them on just before we get to the end of th

"Kelly, what are you doing?" he asked, shocked beyond belief.

"Well, silly, you wanted to hear all the details of my date," she said, "and you were asleep ar
would be a nice way to wake you up."

"What about mom and dad?" he asked, unable to see her clearly in the dim light.

"Oh, they're asleep," she said. "Once they knew I was home they turned their light off. So do
about my date?" she asked softly.

"Yes," John whispered hoarsely.

"Well, I didn't let him fuck me," she said, her hand stealing into his lap to grasp his cock firml

"Kelly!" John exclaimed.

"Look, I didn't get any from Jimmy tonight, so you'd better let me make myself happy with yo

"You didn't?" John asked in disbelief. "Why not? I thought that's why you went out."

"Because of you, silly," she said. "All I could think of was this big beautiful cock, and I knew t
wouldn't make me happy tonight."

"Oh," John began, then gasped as Kelly again leaned over and took his cock back into her m

"Oh, god, this feels so good," Kelly hissed, wriggling her hips until she had his entire 8" burie

her pussy. "What a cock! Becky's father?" she asked, slowly rocking her hips back and forth

"Yeah," John groaned as his sister began to fuck him. "Dad's always bragging about how he golf. I'll bet he'd love to get back at dad somehow and it doesn't sound like he's ever going to golf course."

"Oh, god, this is so good," Kelly said, taking nice long strokes as she fucked her brother. "I'v give me the look before," she panted, increasing the pace.

"You're going to make me cum," John groaned, feeling his balls tighten.

"That's the idea," Kelly gasped, grinding her pussy onto his cock. "Just give me some warnin

"This is your warning," John gasped.

Suddenly Kelly pulled up off of his cock, spinning around and bending over and taking his w her mouth, at the same time lowering her swampy pussy onto her brother's face. John's coc shooting into Kelly's eager mouth. He opened his mouth to gasp and it was filled with Kelly's tongue automatically shot into her pussy, frantically sucking and licking at the juices that flow hole while his cock continued to spew cum into her mouth. After what seemed like hours the stopped, laying with their mouths on each other, breathing deeply. Finally Kelly rolled off and snuggling up against her brother.

"God, John, that was the best fuck of my life," she said. "I guess I've always wanted it to be

"I've never felt anything like it before," John breathed. "And it was definitely great."

"Yes, it was great," Kelly agreed, reaching up and licking his face, tasting herself. "I can't wa next time."

"Next time?" John asked, staring her in the eyes.

"Yes," Kelly said. "I think I want you to try your plan. But on one condition. You have to be av whenever I want, for whatever I want. Agreed?"

"You want me to arrange sex for money for you?" he asked. "But your condition is you get to you want?"

"Yes," Kelly said. "If you agree to that, I agree to try your idea."

"But why?" John asked, his eyes searching her face.

"Because I love to fuck," Kelly said truthfully. "And I love the idea of fucking all of dad's frien
making lots of money doing it."

"But why the thing about me?" he asked.

"Because I love you," Kelly replied. "And I want you for me. The rest of them are for the mon

"This is going to be great," Kelly sighed, thoroughly fucked for the first time in her life.

"You sure you want me to do this?" John asked, watching his cock rub all over her face.

"Oh, yes, I'm sure," Kelly replied, her tongue flicking out to lick his cock. "I want to try it, anyw

"No, it doesn't bother me," John said, shaking his head. "It's business as far as I'm concerne

"Is this business too?" Kelly asked, licking his cock once again.

"This is great," John said, smiling down at her. "I can't believe we've done it. Mom and dad w
fit."

"They'll have more than a fit if they ever find out all of it, that's for sure," Kelly agreed.

"You better get to your own room now," John said, unstraddling her to let her up.

"I'd rather spend the night here," Kelly said.

"We both know how impossible that is," John told her. "It's not worth getting caught for."

"I know you're right, but I'd still rather stay here," Kelly said, getting to her feet. "Thank you a
good-night," she said, wrapping her arms around him and kissing him, her tongue sliding int
you know how to kiss, too," she said, reluctantly letting her arms drop and leaving the room.

The last sight John had was his sister's ass as it swung through the door. He couldn't believ
had turned out. Never in his wildest imagination had anything like this occurred to him. Life w
to get interesting, he thought as he drifted off to sleep.

CHAPTER THREE

The next morning John got up early to do the yardwork that was his chore for the weekend.
and he worked up a good sweat by the time he stopped and went into the house to join ever
breakfast. Kelly gave him a strange look as he sat down, but he just smiled at her, his eyes
nipples under her t-shirt.

"Dad, are you playing golf today?" John asked as they began to eat.

"You bet," Jason replied. "Tom still thinks he can beat me one day. Yesterday I played really
and he didn't, so it made it worse for him. Maybe today will be the reverse."

"Can I come with you today?" John asked.

"You want to play?" Jason asked in some surprise. "I thought you had decided that golf was

you tell me that's where you make some of your best deals?"

"Why, that's absolutely right," Jason said, proud that John had remembered the lesson he h

"Then I should start learning now so that I'll be plenty good when the time comes," John stat
mind, of course. I figure in a year I'll be beating you if I try hard enough."

"Well, that's a laugh," Jason said. "Yes, you might one day beat me, but I think it might take
than a year to get that good."

"I'll make a bet with you," John said, taking a deep breath. "I'll bet if you take me golfing with
whenever you go golfing for the next year, a year from now I'll beat you."

"What's the bet, though, son?" Jason asked, intrigued by his son's thinking.

"If you win, I'll come work for you for the summer at starting wages," John said.

"And if you win?" Jason asked, his eyes twinkling.

"I don't know," John answered truthfully. "But you have to grant whatever wish it is I have at

"That's pretty open-ended," Jason said.

"But I thought you were absolutely certain that there was no way you would lose to me in a y
"Have you changed your mind?"

"No, I haven't," Jason laughed. "And it's a deal. I like the way you're willing to take a risk, Jo
that a lot."

Now, the whole time this conversation had been going on Kelly had her face down in her foo
burning as she realized what John was doing. Did she really have the nerve to go through w
wondered. When she looked up John was smiling at her, totally satisfied that the first part of
gone well. The next part was going to be harder though, finding a way to bring the conversa
where he wanted it to go with Tom Henderson. Well, somehow the opportunity would preser

and then he'd make his pitch.

He finished his breakfast and went to take a quick shower before leaving for the golf course When he had finished and went back to his room, he almost jumped through the roof when h the door to see Kelly standing there. His cock immediately sprang to its full size, standing ou him.

"Well, it's nice to see that you're still happy to see me," she said, laughing as John blushed. going to do it?" she asked as he quickly began to dress.

"If you want me to," John replied, pulling his shirt on over his head. "Do you want me to?" he at her. "It's not too late to change your mind."

"I think I'd at least like to try it," Kelly said, nodding. "Especially since it's Becky's father. She such a snotty bitch, it'd be fun knowing that I was fucking her father."

"Okay, then, I'll find a way to make a pitch to Tom while we're playing golf," he said.

"And I want you to be there when I do it," Kelly added.

"Jesus, Kelly," John breathed, staring at her. "That's asking a lot."

"Why, do you mind?" she asked.

"It's not me," John replied. "I'm sure most people don't like an audience."

"Well, you'll have to explain that because I'm still in high school and inexperienced and all th only do it if you're there with me," she said. "I mean it."

"Well, I'll try," John agreed. "But what if he won't go for that part of it, will you still go through it?"

"I'm not sure," Kelly said. "Probably. But I'd rather you were there to watch."

"Why?" John asked, puzzled.

"Because I want you to get so hot and horny watching someone else fuck me that you'll tota out after we get done," she replied, smiling at him.

"You can tell me about it and get the same results," John said.

"No, I want you to watch," she insisted. "I want to be performing for you."

"God, Kelly, you are one perverted sister," John said, laughing. "But that's fine with me. Now
play golf," he said, opening the door to leave.

"Hurry back," Kelly said, suddenly leaning forward and kissing him, one hand reaching down
his pants. "I'll be waiting for you down by the river."

Tom Henderson is actually a nice guy, John decided after they had played the front nine. An
that his father was actually a bad sport, even more so because he always won. So when on
made a comment under his breath that John heard about wishing there was some way to ge
son of a bitch, John took a deep breath and jumped in.

"Do you mean that?" he asked Tom, making sure his father couldn't hear.

"I'm sorry, John," Tom said, "I didn't mean for you to hear that."

"No, really, I agree with you," John said. "I didn't realize what a bad sport he is. It makes me
said, explaining the bet they had made that morning.

"That's unfair," Tom protested. "You have no chance."

"Oh, I think I'll manage," John said with a grin. "But that's not important now. Would you real
back at him somehow?"

"Yeah, I suppose I would," Tom replied. "Even though he's really my best friend, he needs to
Why, do you know something I don't?"

"Well, I'm not sure about that," John said, hedging and suddenly feeling very nervous. "But I
an idea."

"Well, what is it?" Tom asked.

"Well, it's pretty crazy and very out of line," John started, "but if it worked you would have pu
him in spades and he'd never even know about it."

"Really!" Tom replied, looking at John with a different expression on his face. "I think I'd like
something like that."

But just then Jason came over to them and they had to stop their conversation. It wasn't unti
holes later that they had a chance to resume, looking for John's ball in the rough.

"So, John, why don't you tell me about your idea," Tom began.

"Well, it's just an idea, and I don't want you to get the wrong idea, about me or anything," Jo

"I understand," Tom said. "Still, I'd like to hear what you're thinking. Maybe there's somethin
can use."

"Well, it involves my sister," John said.

"Your sister!" Tom exclaimed, his mouth opening in surprise. "How can she help?"

"It's not that she can help," John explained, "but she could be the instrument of your revenge

"So, revenge is it now," Tom said, a big smile on his face. "It's not that serious, you know. Y
every time we play and he rubs it in," he admitted. "But I wouldn't want to hurt him in any wa

"That's what I mean," John agreed. "I mean, he's my dad, after all, and I don't want him hurt

"So how would your sister figure into this?" Tom asked, a smile on his face.

"Do you think she's pretty?" John asked him.

"Why, yes, she is," he agreed. "Very pretty actually."

"Yeah," John agreed. "How mad do you think dad would be if he knew that one of his friends
with her?"

"Playing around with her!" Tom exclaimed. "What on earth are you talking about?"

"Well, let's say I could get Kelly to spend some time with you," John began. "That would be
payback, wouldn't it?"

"Spend some time with me," Tom said. "What are you getting at, John?" he asked sternly.

"What if I could get Kelly to agree to have sex with you," he said, taking the plunge. "How w
you feel?"

"You're joking!" Tom said with a laugh. "Why, she's still in high school. I could get in trouble

"Is that your only problem with the idea?" John asked, smiling. "I'm still in high school too. W
feel like you had really gotten back at him, and without him even knowing?"

"Jesus!" Tom exclaimed, all his breath leaving his body. "What an outrageous idea. What m
you could get her to agree anyway?"

"She's my twin sister," John replied. "I know her better than anyone. So you're interested?"

"Let's just say that it's a very interesting idea," Tom said, shaking his head. "But what could
to make her the least bit interested in an idea like that?"

"Oh, money has always been something that motivates Kelly," John replied. "If I were to tell

"$1000!" Tom exclaimed, looking at John in horror. "To have sex with a high school girl!"

"Well, it's not like she's a dog or anything," John said. "Or maybe you don't think she's good
enough."

"No, no, it's not that," Tom said, stunned by what he was being offered. "Actually I've notice
Kelly's has become in the last year or so."

"Well, she has to have some reason, doesn't she?" John said. "And if I could explain it to he
thought she was so beautiful and so sexy that you'd be happy to pay her $1000 for sex, wel
you know how they love to feel appreciated, especially when they're only in high school and
themselves as something more than just a girl."

"Jesus! Where did you learn to think like this?" Tom asked.

"Oh, I've listened to dad explain his deals and rationalizing things all my life," John replied. "
I'm going to be a stockbroker like him one day, only I'll make more money that he has."

"Well, if you keep thinking like this I wouldn't doubt it for a minute," Tom agreed.

"It's just an idea," John said.

"Hey, you two," Jason shouted. "Time's up. You have to drop a ball."

"We'll talk later," Tom said, walking away.

They finished their golf game and piled their bags into the trunk of the car for the ride home.

"Hey, John, I've got some lumber I need to move that's too big for me to handle all by mysel
interested in helping me, I'll give you a few dollars for your trouble."

"Dad?" John asked, looking at his father.

"You do what you want to, son," Jason said.

"Sure, I'd like that," John agreed, getting out of the car.

"I'll give him a ride home when we're done, Jason, okay?" Tom asked.

"Fine, Tom, and thanks for the game," Jason said. "As usual it was fun."

"Yes, I'm sure it was," Tom said. "I'll get you yet, Jason."

"Sure you will, Tom, sure you will," he replied, laughing as he backed the car down the drive

"Arrogant!" Tom muttered, picking up his golf bag. "Come on, John, I really do have a pile of

one to John, sitting down with him under some trees in the back yard.

"So, you think your sister will go along with your scheme?" he asked John.

"I think there's a good chance," he answered.

"I take it that she isn't a virgin anymore then?" Tom asked.

"No, I think that disappeared a couple of months ago. But I'm sure she has almost no experi

"And you think you can talk her in to this idea?"

"I can't think of anything Kelly wouldn't do for $1000," John replied. "Think of Becky. Can you turning down $1000, for anything?"

"Hey, you watch yourself there," Tom warned him sternly. "You're talking about my daughter

"Well, do you?" John persisted. "Think about it. You know how much she loves new clothes. Well, Kelly's no different than any other girl in her class. And since we only get an allowance no way to get anything unless she asks for it from mom and dad."

"What you say makes a lot of sense," Tom admitted. "But $1000 is a lot of money."

"Exactly," John agreed, "to Kelly, or Becky, or me. But not to you or someone like my dad. Y much money you're constantly looking for new ways to spend it."

"Isn't that the truth," Tom laughed, agreeing with him. "Come on, I'll give you a ride home no

The ride home was short and very quiet. John knew that Tom was thinking about his idea ar he had figured him right. He wasn't worried that he'd tell his father about his proposition, just go for the bait. Literally. As they pulled up to the house John pointed out Kelly walking throu towards the river path. She was only wearing a bikini and her full ripe body was fully visible.

"I'll tell you what, John," Tom said, giving him $10 for helping him back at the house. "You ta sister and see what she thinks of your idea, without mentioning me if you can, and then get i We'll talk more then."

"Okay," John agreed, trying not to smile to hugely.

"Personally I think your idea is crazy and probably won't go anywhere," Tom said.

"But you never know," John replied.

"But you never know," Tom echoed, a smile on his face as Kelly disappeared from view into

"Thanks, Mr. Henderson," John said, getting out of the car.

"You can call me Tom, John," he replied. "After all, we're golfing partners now, aren't we?"

"We sure are," John agreed, a big grin on his face. "I'll talk to you later."

As he pulled away in the car John had to fight hard not to jump high up in the air. He had do just a matter of selling the fine print, namely Kelly wanted him there to watch. Dumping his g garage, John took off down the trail towards the river. When he got to the clearing Kelly was water, her suit in a pile on the grass. Wanting to surprise her, John sat down with his back a tree, enjoying the sensation of having just pulled of his first big deal. It wasn't long before he scrambling up the embankment. As she cleared the top and looked up, she started, surprise there, then relaxed when she realized that it was John.

"You scared me," she said, climbing up onto the grassy area, her naked body sparkling with sunlight.

"I thought you didn't mind if anybody caught you naked," John said.

"Not if you're with me," Kelly replied, smiling at him. "Did you talk to him?" she asked, sinkin grass next to him.

"Yeah," John replied, nodding his head.

"Well, what did he say?" Kelly asked, slightly perturbed at having to pry it out of him.

"He wanted me to find out if you'd have sex with him for $1000," John said, watching her fac reaction.

"You're kidding!" Kelly gasped, her hand going to her face. "Did he really?" she asked.

"Oh, yes," John told her. "I'm supposed to get in touch with him."

"God, I can't believe it," Kelly said, her eyes wide. "What did you tell him to convince him?"

"I told him what high school girl could resist the idea of $1000 to spend on clothes and fashi
like that."

"And he said yes?"

"Not at first, but at the very last moment he told me to talk to you. Now I just have to find out
where and see if he'll let me be there."

"I definitely won't do it if you're not there," Kelly said, looking suddenly afraid.

"I'll tell him," John said. "I just hope it's not a deal breaker."

"Oh, John, this is so exciting," Kelly said, squeezing her tits and pinching her nipples. "I wan
me right now," she said, reaching out and grasping his already hard cock through his pants.

In mere seconds she had his pants open and his cock out, sucking it into her mouth eagerly
his balls. But she only sucked on him for a few seconds, then turned away on her hands and
pussy pointing at him.

"Come on, John, stick it in me," Kelly begged, one hand under her body opening her pussy
sliding in. "I'm so wet."

Getting to his knees, John got behind Kelly, rubbing the head of his cock between her sprea
pressing it into her slowly, not stopping until it had entirely disappeared in her pussy.

"Oh, god, John, fuck me, fuck me," Kelly moaned as he began to slide his cock in and out of
feeling her pussy getting wetter and wetter with each stroke. John could not believe that he
buried in his sister's pussy yet again. And it felt so good. And tight. He could see her pussy
to his cock each time he pulled back, only to disappear along with his cock as he plunged ba
a fierce rhythm going as he slammed his cock in and out of his sister's pussy, smacking his
ass each time he thrust deep into her.

"Don't forget, I want you to cum in my mouth," Kelly panted, her arms extended to absorb th
continued to pound his cock into her.

"Turn around, then," John gasped slamming one last time into Kelly's pussy.

Kelly gasped when she felt John's cock suddenly withdrawn from her pussy and she quickly that his cock was hanging in front of her face, dripping with their combined juices. She open hungrily sucked on it, slurping at it and delighting in the flavors. He was so hard! Then she fe hands twine in her hair, holding her head firmly in his grasp, and then he began to fuck her r his cock in and out, banging it into the back of her throat each time. She concentrated on lat with her tongue each time he filled her mouth, loving the feeling of it sliding back and forth, s smooth. Then John groaned and Kelly knew she was about to get her reward. His balls spas swelled even harder before he erupted, cum shooting into Kelly's mouth and she sucked on came and came, Kelly's tongue driving him wild as she licked at his cock while swallowing a to give. Finally there was no more and John stepped back, moving his cock out of range of k mouth.

"I love the taste of your cum," Kelly said, licking her lips. "And I love the feeling of your cock Do you like fucking me and cumming in my mouth, John?" she asked, rising to her feet and against him.

"Oh, yeah, I like it just fine," John said, smiling down at her. "I like it more and more each tim

"Good," Kelly said. "Tonight you get to eat my pussy until I cum, okay?"

"We've got to be careful about mom and dad," John reminded her.

"I know," Kelly replied. "And we will be. After they go to sleep."

"I'll probably be asleep by then too," John said.

"Not once I get hold of you you won't," Kelly said with a laugh, kissing him. "When are you g Mr. Henderson?" she asked.

"I don't know, maybe tomorrow," John said.

"Why not tonight?" Kelly asked, reaching down and picking up her bathing suit.

"I don't know," John answered. "I guess I could call him tonight."

"I think you should," Kelly said.

"You're really in a hurry to do this, aren't you?" John asked her.

"It excites me, the idea of it all," Kelly answered. "I can't wait to fuck someone while you're w
That's the most exciting of all."

"We'd better get home for dinner," John said, "or they'll be wondering where we are."

"All right, let's go then," Kelly agreed, skipping of down the trail, her bikini in her hand.

John followed, a smile on his face and his cock getting hard again in his pants. They finishe
cleaned up, Jason bragging once more about how he had beat Tom at golf and at how well
somehow escaped and found a phone, quickly dialing the Henderson home. To his immens

"Hi, Mr. Henderson. It's me, John." he said.

"Hi, John, how are you?"

"Oh, fine," he replied.

"You wanted to talk to me?" Tom asked.

"Well, yes," John stammered. "Uh, I talked to her."

"And what did she say?"

"Well, she said okay in the end," he explained, "except for one difference."

"Oh! And what is that difference?"

"She's sort of afraid to go by herself," he explained. "She wants me to be there with her whe

"You're joking!" Tom said.

"No, that's what she said," John told him. "I tried to talk her out of it but it was no use. It's the
she'll do it. I even tried to emphasize the money, but it didn't matter how much it was if I was
her."

"I don't know about this, John," Tom said. "I've never had an audience before."

"Well, you can be sure this is totally strange to me," John said to him. "I mean, she's my sist

"No, I don't think my house would be a good idea," Tom said. "My office would be better. Yo
is?"

"Yeah, same place my father's is," John replied. "But when?"

"Well, how about tomorrow night?" Tom asked. "Can you get out on a week night?"

"I guess we could, if we told them we were going to a movie or something."

"That's a good idea," Tom said. "Why don't we say 8:00 tomorrow night at my office, okay?"

"Uh, sure," John agreed. "But you have to pay Kelly first, in cash, okay? She won't be so ner

"Fine, fine," Tom agreed. "Then I'll see you tomorrow night at my office at 8:00 then."

"Okay, 8:00."

John went to his room, his head spinning as he realized that tomorrow night he was going to
best friend fuck his sister for $1000. His cock was rock hard just thinking about it. He lay dov
his hands behind his head, thinking about what was going to happen, wishing that Kelly was

"Tomorrow night!" Kelly said, sitting up. "So soon!"

"Do you want me to call it off?" John asked, staring at her in the soft light.

"N-n-n-no," Kelly stammered. "I want to do it. I'm just nervous, that's all. What if he doesn't li

"Okay. I'll see you in the morning then."

"Good-night."

CHAPTER FOUR

John was up and awake eating breakfast the next morning before Kelly ever appeared. She
for school in a mid-thigh skirt and blouse, with a bra on underneath. Because of Karin's pres

night. They finished breakfast and kissed their mother good-bye, going out to the garage to
while Karin went to take a shower to start her day. As soon as the door to the kitchen was cl
to John, pressing herself up against him as one hand grabbed his cock through his pants.

"I am so excited thinking about tonight that I can't stand it," Kelly said, massaging his rapidly
erection. "You've got to fuck me right now."

"Here! In the garage!" John exclaimed, looking around as if she were crazy.

"Right now," Kelly panted, frantically working at his zipper and reaching in for his cock. As so
him exposed she turned and bent over, her hands flat on the floor.

"Go ahead, please fuck me," she begged, wriggling her ass.

Shocked by Kelly's brazenness, John lifted Kelly's skirt to find that she had no panties on an ass and pussy were pointing at him. He could see a drop of moisture dripping from the end o clit as it stuck out from between her pussy lips. Taking his cock in his hand, he rubbed the h between Kelly's thick pussy lips, feeling it get instantly coated in her slick juices. Raising it u pressed it against the opening to her pussy and very slowly pressed forward, watching inten inch disappeared inside of her. Then he started rocking his hips back and forth, sliding the e his cock in and out of his sister's pussy while she remained bent over in the garage.

"Oh, yes, fuck me, John, fuck me," Kelly cried out, feeling his cock deeper inside of her than been.

John couldn't believe how excited he was as he slammed his cock in and out of Kelly's puss wouldn't last very long, and when he felt that familiar churning in his balls, he warned Kelly t about to cum. She quickly stood up, dislodging him from her pussy, and turned around, drop engulf his slippery cock in her mouth. John groaned as he exploded, filling Kelly's mouth wit she gulped it down. When she had finished sucking all of the cum from him, she smiled, stuf into his pants before standing up and zipping him up.

"Now we can go to school," she said, licking her lips and smiling at him.

"What about your panties?" John asked, walking his bicycle out the garage with Kelly.

"I'm not going to wear any," she declared, smiling at him. "It makes me feel so wicked and h under my skirt. Plus, I like rubbing my clit on the bicycle seat," she said, mounting the bicycl obviously rubbing herself on the seat as they began to ride to school.

"You're incredible, Kelly," John laughed as he pedaled behind her, watching the action of he continued to stimulate herself on the seat.

By the time they got to school, Kelly declared that she had cum at least a dozen times, and inclined to disbelieve her, seeing how soaked her seat was with her pussy juices. What did s Kelly leaned over and licked her seat, slurping at the juices that coated it.

"Do you think Mr. Henderson will eat my pussy for me tonight?" she asked him as they walk

"I think he'll do whatever you want him to do," John replied. "I'll see you later," he said, going

first class, a smile on his face.

John and Kelly saw each other several times during their day at school, even having one cla

"I've got to get out of here," Kelly told him as she approached. "I can't stand it any more."

"Why, what's the problem?" John asked.

"I've been so horny all day and all I can do is think of fucking. It's like a virus or something, o
addiction. I can't wait to fuck you."

"Jesus, Kelly, get a grip," John said, laughing. "You'll drive yourself crazy. Besides, mom's h

"I want you and I want you now," Kelly insisted as they rode up to their house. Now, be quie

By the time John followed her into the garage, Kelly had dismounted her bicycle and was str

pants and moved up behind his sister's exposed pussy. She was so wet that John was able

"Hi, mom," Kelly panted. "We'll be right in," she said as John's cock exploded inside of her, c

deep into her pussy.

"Okay," Karin said, leaving the door open and turning back to the kitchen.

John's cock continued to spasm, shooting glob after glob of hot cum into his sister's pussy. A
finished cumming, Kelly pulled away, dislodging his cock from her pussy.

"God, you came inside of me," Kelly breathed at him, her mouth hanging open. "It felt so gre

John drank a big glass of milk, feeling his knees trembling at the close call they had just had
freaked out because he knew that he had cum in his sister's pussy, and that it had felt great
pussy muscles milking his cock as it pumped into her. He went to his room to wait for Kelly t

door to his room to go out, almost running over Kelly who was standing there.

"I'm sorry, Kelly," he said, conscious of the small towel she was holding around herself. "I di

"God, Kelly, you're crazy," John laughed softly, his eyes taking in her beautiful body, her tits
her nipples hard and pointed. "Aren't you at all afraid of mom catching us?"

"I'm not sure," Kelly said with a laugh, closing the towel once more and moving past him, on
caressing his crotch.

John went into the bathroom to take his shower, surprised to find that his cock was raging ha
couldn't believe how turned on he got by his sister. He couldn't wait to see Mr. Henderson's
and Kelly's reaction also, he thought as he showered. It was sure going to be fun.

CHAPTER FIVE

As they sat down as a family to dinner, John and Kelly were both having trouble acting as th
nothing special happening. They were helped in this by their father who was happily talking
trounced a colleague of his in the market that day. He was even happier that they had agree
of golf then next afternoon so that he might try to extract some revenge.

"Can I play too?" John asked.

"Sure you can," Jason agreed expansively. "It'll be good practice for you and you can watch
another lesson."

"Great!" John said, looking forward to it.

"Dad, do you mind if John and I go to a movie tonight?" Kelly asked.

"Isn't it a school night?" he asked.

"Yes, it is," Kelly agreed, "but there's an early showing and we could be home by 10:00 or 1
want to see the movie."

"You have any problem with that, Karin?" Jason asked his wife.

"No, I guess it will be alright," she agreed. "But you have to come home right away when it's
want I'll give you a ride."

"No, the weather's been so nice," Kelly said, "I think it would be nice to ride our bicycles."

"Well, don't let that be an excuse for being late," Karin warned. "Or I'll ground the both of you
of the month."

"We promise," both Kelly and John said simultaneously.

They finished dinner and cleaned up and John and Kelly wandered back to Kelly's room.

"What should I wear" Kelly asked.

"Just like you wore to school today," John replied. "Short skirt, no panties. We want him to b
excited, and it will make you seem more like a little girl to him. The idea is for him to like it so
he wants to do it again and again."

"What if I don't like it?" Kelly asked, stripping out of her shorts and panties and bending over
through a drawer for a skirt, her naked ass and pussy pointing at John.

"You really think that you're not going to like it?" John asked with a laugh.

"No," Kelly agreed, laughing as she turned around, a skirt in her hand. "In fact, I'm so wet rig
believe it," she said, walking up to John and pushing her pussy into his face. "Lick me, John
minute," she said, feeling his tongue slide between her pussy lips to tease her swollen clit.

"Get dressed now," John said, leaning back, pussy juice smeared across his mouth. "We ne

"Okay," Kelly said, feverishly rubbing her pussy before pulling the skirt on.

"Don't forget," John said as they got on their bicycles for the short ride into town. "Act your a
younger, and ask for the money first. My guess is he'll be so excited that he'll cum really fast
can get out of there."

"Okay," Kelly agreed, obviously rubbing her pussy on her bicycle seat as they rode.

They got to the office building and parked their bicycles in front, ringing the bell to Tom Hend
for admittance. When the buzzer went off, they opened the door and entered, getting into an
ride to the 16th floor. When the door opened, Tom Henderson was standing there, a drink in
smile on his face.

"Hello, John," he said. "And hello, Kelly," he said, taking her hand and leading her off the ele
look very nice tonight, Kelly. Would you like something to drink?"

"Um, maybe a soda, Mr. Henderson," Kelly replied, suddenly acting shy and nervous.

"How about you, John?"

"A soda would be just fine," John answered.

"What did you tell your parents about where you were going?" Tom asked as he handed the

"We told them we were going to a movie," John replied. "They told us to come home right af
or 10:30."

"Well, that gives us a couple of hours anyway," he observed. "And what would you like to do
Kelly?" he asked, taking her by one hand and gently pulling her next to him."

"Gee, Mr. Henderson," Kelly said. "John said you thought I was pretty and that you wanted t
He told me you'd give me lots of money if I agreed."

"And is this something that you want to do?" he asked, his hand sliding around her waist to l
his body.

"Well, I guess so," Kelly said, giggling. "I mean, why would you want me?"

"Well, Kelly, I think you're a very beautiful young woman," Tom replied. "You're not a virgin,

"No, not any more," Kelly answered, taking a sip from her soda.

"Well, then, what would you like to do first?" he asked.

"Well," Kelly said, pressing her pelvis slightly against his leg. "I'd like the money, I guess."

"Of course you would," Tom laughed, reaching into his pocket and pulling out a packet of hu
and handing it to her. "$1000 is a lot of money, Kelly, don't you think?"

"Oh, yes, it sure is," Kelly said, staring at the money in her hand.

"Why don't you let John hold that and we'll go into the other room," he suggested.

"Oh, no," Kelly said, staring at him. "I want John to be here too."

"Do you always have sex in front of John?" he asked, letting his hand drop down so that it w

"John's never seen me have sex with anyone," Kelly assured him. "But I'd be more comforta

"John, you don't mind watching me have sex with your sister?" Tom asked.

"If it's what Kelly wants, I don't mind," John assured him, taking the money that Kelly was ho
and putting it in his shirt pocket.

"What would you like me to do, Mr. Henderson?" Kelly asked.

"Well, why don't you take off your shirt to start with," he suggested.

"Okay," she agreed, putting her soda down and then pulling her t-shirt up over her head, lea
there in he bra and skirt.

"The bra too," he asked, staring at her tits filling her bra, her nipples obvious even through th
material.

Kelly reached behind her back and unhooked her bra, letting it fall forward exposing her tits,
her arms and dropping it on the floor on top of her shirt.

"Jesus, Kelly," he exclaimed, his hands moving to cup both of her big full tits, his fingers find
nipples and squeezing them. "You are very beautiful."

"You like them?" Kelly asked, excited and enjoying the feel of his hands on her.

"They're beautiful," he said, bending over to suck one nipple into his mouth, his tongue teasi

"Oh, Mr. Henderson, that feels so nice," Kelly said, letting her arms go around his head and
her.

For several minutes he chose to just suck on first one, then the other of her tits, using his te
and hands and causing Kelly to be very stimulated. Then he let his hands slide around her t
ass cheeks, pulling her close as he continued to suck on her tits. Kelly glanced over at John
had a big lump in his pants. Then she felt Mr. Henderson's hands slide down her legs almos
softly rubbing the smooth flesh of her thighs. When his hands slid back up, they slid under h
her bare ass.

"No panties?" he asked, looking her in the face in surprise.

"I don't like to wear them," Kelly said, feeling his fingers pressing into the crack of her ass as

her cheeks. "That feels nice, Mr. Henderson," she said, enjoying the sensation. "Does it exc

"Yes, it does, Kelly," he said, marveling at her forwardness as she continued to rub his cock

"You wouldn't mind?" she asked, blinking her eyes in a feigned innocence as she dropped to
of him, both hands working at his zipper.

"What would you like to do?" he asked.

"Oh, it's so big," she said when she had extricated his cock from his pants, her hand wrappe

"Please do," he replied, looking up at John and smiling.

John watched as Kelly began to suck on Mr. Henderson's cock. From what he could see, his

"She doesn't like to suck cock, Kelly," he replied.

"Is that why you wanted me then?" she asked.

"It's one of the reasons," he admitted. "But I also wanted you because I think you're a very b
woman.

"You're so nice, Mr. Henderson," Kelly said, wrapping her arms around him and kissing him

"Would you like me to suck your pussy for you?" he asked her.

"Oh, yes," Kelly gushed. "Would you please? I'm so hot and wet and I need something."

"Well, why don't you take your skirt off first," he said, "and I'll undress too."

It only took Kelly ten seconds to drop her skirt to the floor, leaving her standing naked in fron

"That's beautiful, Kelly," he said, staring at her spread pussy in front of him.

"Eat my pussy for me, Mr. Henderson," Kelly implored, wriggling her ass. "I'm so horny."

John watched as Mr. Henderson bent over and slid his tongue all through Kelly's pussy, whi

"You ate me so nice," Kelly purred, kissing him. "Will you fuck me now?"

"Is that what you'd like, Kelly?" he asked, again shocked by her forwardness.

"Oh, yes, I want your cock inside of my pussy," Kelly said. "I want to feel it fill me. But you ca inside of me. I'm not on the pill. But you can cum again in my mouth."

"That sounds fine to me, Kelly," he said. "But why don't you sit on one of these bar stools. It much easier. Now, hold your knees up to your chest," he instructed.

"Maybe John can help," Kelly said, trying to bring her knees up and stay on the stool at the s

"Here we go," he said, slowly pushing forward.

"Oh, yes," Kelly panted, "fuck me, please fuck me," trying to lift her pussy to meet his slowly cock.

John watched as inch by inch Mr. Henderson's cock slid into Kelly's pussy. He couldn't belie seemed and how easily Kelly's pussy adjusted to its size, welcoming it deep inside of her. John knew that he wasn't far from cumming himself. When Kelly felt his cock begin to grow
of her pussy, she too knew that he was about to cum.

"Please, Mr. Henderson, don't cum inside of me," she panted, "cum in my mouth."

"Alright then," he gasped, pulling his cock from her soaked pussy. "Quickly now," he urged,
throbbing.

Almost falling off of the bar stool, Kelly dropped to her knees in front of him, opening her mo

"God, Kelly, you're incredible," he panted, not daring to believe that this was the high school
his best friend. "You've got an incredible pussy and an incredible mouth too," he said.

"I love your cock," she said, again dropping down to her knees to gently suck on him. "If you
again, do we have time for one more fuck?" she asked.

"It would have to be a fast one, Kelly," John said, looking at his watch. "We need to leave he

"God, yes," Tom Henderson gasped, not believing how hot this little vixen was. "How about
same time?" he asked.

"Oh, really!" Kelly exclaimed. "You really want to fuck me again?"

"I sure do," he admitted. "We can make it a weekly thing if you want to."

"Oh, Mr. Henderson," Kelly gushed. "That'll be great. I can't wait to feel your big cock in my p

"Oh, I could fuck all night," Kelly said, grinding her pussy onto the bicycle seat. "Especially fo

"Yeah, we really do have $1000, don't we," John marveled.

"I can't wait for next time," she said. "Do you really think that dad's other friends would like to

"I'm sure of it," John said. "But are you sure you want to do this?"

"Oh, yes, I am," Kelly assured him. "I want all the cock I can get, especially if there's $1000 a
each one."

"Well, I'll see what I can do," John promised as they pulled up to their house.

"Hi there, you two," they heard their mother say as they pulled into the garage.

"Hi, mom," Kelly replied.

"How was the movie?" Karin asked as they came through the doorway into the kitchen.

"It was great!" Kelly responded. "I think we'll go to the movies more often. It's a nice way to s
evening."

"I think that's a nice idea," Karin agreed, pleased that her twins were still so close.

"Night, mom," Kelly said. "I'm pretty tired so I think I'll go to bed."

"Me too," John agreed. "Night, mom," he said, kissing her on the cheek.

What beautiful children I have, Karin thought wistfully as she watched them retreat down the
lucky, she thought.

John was about to fall asleep when he felt, more than heard, his door open, and then Kelly w
his bed with him, completely naked.

"Now it's my turn to fuck you," she said, kissing him, her hand going between their bodies to

"I want you to cum in my mouth," Kelly panted as he fucked her. "I want to taste your cum."

"Well, here it is," John gasped, pulling his cock from his sister and crawling up her chest, slid and gooey into her open and waiting mouth. He felt her suck him down into her throat and th exploded, his cum shooting into her mouth. He could feel her gulp once, twice, three times a swallow his cum as quickly as it filled her mouth. Then he felt his cock subside and he fell ov bed, spent as though it had been him fucking her all night.

"Thank you, John," Kelly said, kissing him. "I love you so much for letting me be a whore and this."

"You may be a whore," John said softly, "but you're a very expensive one, and I love fucking watching you get fucked too."

"I know you do," Kelly said, hugging him. "That's why you're so perfect."

John fell asleep with a smile on his face, never even noticing that Kelly got up and returned

CHAPTER SIX

The next morning Kelly again came to John's room and fucked him silly before their parents breakfast. John hurried home after school to meet his father so they could go play golf with Bob Adams. When they got to the course, John was surprised to see that Tom Henderson w

"Hello, John," Tom said, shaking his hand. "More practice?"

"Uh, yeah, Mr. Henderson," John said, unable to get out of his mind the sight of his sister be him the night before.

"How's Kelly," he whispered to John when he was sure he wouldn't be heard.

"She had a big smile on her face this morning," John said, remembering how she looked as

"So did I, all night," Tom replied, laughing.

They began to play and John saw that Bob didn't have a chance of beating his father. And fo neither did Tom. It was obvious towards the end of the round that Bob was thoroughly frustra at being so thoroughly trounced.

"He sure looks like he'd like to kill dad," John observed to Tom.

"Yeah, he's not a happy camper," Tom agreed.

"Maybe I should tell him about Kelly," John mused, curious to what Tom's reaction would be

"I'm sure he would," Tom laughed. "I'll say something to him for you, if you'd like."

"You wouldn't mind?" John asked, surprised.

"Hell, no," Tom replied. "I'd like to see everyone your dad has stepped on be able to get bac
great guy, he just has no class."

John couldn't believe his luck when he heard this. He was even more surprised when Bob c
walked up the 18th fairway.

"I understand you could help me pay back your father a bit for being such a shit," he said ou
John.

"Uh, what do you mean?" John said, suddenly unsure of himself.

"Your sister," he hissed. "Is it true?"

"Yes, it's true," John agreed.

"$1000?"

"That's right."

"Well, I want to fuck her in the ass and pretend that it's your father," he said. "You have any
that?"

"Me, no," John said. "But I'll have to ask Kelly. I don't know if she's ever done that before."

"Well, if she agrees, you two come to my house at 8:00 tonight."

"Your house!"

"Sure. It's okay, trust me. 8:00."

"Okay. I'll talk to Kelly. But I don't know if my parents will let us out tonight. We went out last

"I heard," he said with a grin. "I'll take care of that for you too."

They finished playing the round and picked up their bags to walk to the parking lot.

"John, I noticed that you're using an old putter," Bob Adams said. "Why don't you come by m
I'll let you have one of my old ones. They're all new compared to that and you might find one
right in your hands."

"Gosh, Mr. Adams, that'd be swell," John said in genuine gratitude. "I'd really appreciate tha

"You got any problem with that, Jason?" he asked.

"No, not at all. That's really nice of you."

"No, it's a pleasure. John's a good kid and he'll beat you one of these days, even if we don't.

"Well, that's what he thinks too," Jason laughed. "But I doubt it."

"I don't," John said, steel in his voice.

"I'll see you tonight then, John."

"Sure thing, Mr. Adams, and thanks."

"Don't mention it, don't mention it at all."

When they got home John went directly to take a shower before sitting down to eat dinner. H
chance to talk to Kelly yet and he was worried about her reaction to Mr. Adams' strange requ
the ass. Luckily for him his father saved the day by his regular bragging, which also included
to pick himself out one of Bob Adams' putters that evening.

"I think that's wonderful, John," his mother said, leaning over and kissing him on the forehea
and keep practicing and we all know that you're going to beat your father one of these days.

"I plan on it," John said, staring directly at his father's smirking face. "Hey, Kelly, you want to
me tonight?"

"Uh, well, sure," Kelly replied, surprised to be invited.

"It's better than hanging out here anyway," John told her, winking.

"Okay," she said.

After they finished dinner and cleaned up, they got their bicycles from the garage and starte
house and John quickly filled Kelly in on his conversation with Bob Adams that afternoon.

"He wants to fuck me in the ass?" Kelly asked, slowing down her pedaling. "I don't know if I

"Have you ever done it before?" John asked.

"Not really, just once someone pushed their finger into my ass while we were fucking."

"Did you like it?"

"It made me cum like crazy," Kelly laughed, remembering.

"Well, do you want to do this?" John asked. "He agreed to the $1000 too."

"I guess so," she responded. "Besides, it might be fun too. And if I'm going to be a whore I h
like that, don't I?"

"Kelly, I don't think you're a whore, maybe a high-class call girl."

"It's still a whore," she laughed. "Sex for money. Besides, I like thinking of myself as a whore
wicked."

They pulled up to the Adams' house and parked their bicycles, knocking on the door. It was
Adams, surprising both of them. She was a short blonde woman, very beautiful, it seemed t
wearing an oriental lounging robe.

"Oh, hi. You must be John and Kelly," she said. "Bob's in the den. Go right on in."

They went into the den and Bob was standing there with a drink in his hand, wearing an ide
one his wife had been wearing.

"Hello, John," he said, smiling at them. "And you must be Kelly," he said, walking over to sha
"You're even prettier than I'd heard," he said.

"Thank you," Kelly said, blushing slightly as she looked at him. He appeared to be of mediur
strongly built and he was nice looking too, she thought as he released her hand.

"I believe this is for you," Bob said, reaching into a pocket and pulling out a folded wad of mo
it to Kelly. "Is that right?"

"Uh, yes," Kelly said, feeling herself blush again as she took the money, turning to hand it to

"What about Mrs. Adams?" John asked, looking towards the door.

"Oh, don't worry about her," Bob said. "It's no problem at all. I understand that you insist on
present, right?"

"Uh, yeah," Kelly nodded. "I feel safer for some reason."

"You don't mind your brother seeing you, you know, naked like that and having sex?"

"It sort of excites me to know he's watching, actually," Kelly replied, turning to John with a sn
face. "And I know it excites him."

"I'll bet it does," he agreed with a smile. "Why don't you take your clothes off for me to start v

"Are you sure?" Kelly asked, looking back at the open door.

"It's no problem, I assure you."

"Well, okay then," she said, pulling her t-shirt off over her head, then releasing her bra and le
to the floor. Her tits fell free of the constraining bra and her nipples hardened instantly, screw
cherry knots on the end of her full tits. Then she unzipped her shorts, letting them slide to th
leaving her standing naked in front of Bob since she wasn't wearing any panties.

"God, you are really a beautiful young girl, Kelly," Bob said, frankly appraising her body. "An
amazing clit that I've heard about," he said, reaching down between her legs to gently stroke
out from between her pussy lips.

"Ooh, Mr. Adams, that feels nice," Kelly said, feeling her juices begin to flow.

"Would you like to suck my cock for me, Kelly?" he asked, letting his robe part to reveal that
naked underneath.

"Oh, yes, I love to suck cock," Kelly said with a smile. "Yours is so thick too," she said, shyly
forward to grasp it in her hand.

Dropping to her knees in front of him Kelly flicked her tongue out, wiping across the head of
tasting him. Immediately his cock swelled to its full size in her hand, not quite as big as John
but much thicker than either of them. Unable to get her hand all the way around the shaft, K
mouth as wide as she could and closed her lips around the head of Bob's cock, letting her to
around it.

Bob sighed as he watched Kelly on her knees in front of him trying valiantly to suck his cock
swaying in front of her. He looked up at John and smiled as he was how rapt his attention w
blowing him. John noticed Bob's attention and shifted his eyes, looking up and back over his

turned back around to watch as Kelly continued to suck on Bob's cock. His mind was whirlin
of Mrs. Adams' presence.

"Boy, you sure are big, Mr. Adams," Kelly said, gasping for breath.

"You're doing fine," he replied, slightly leaning forward so she would continue.

Eagerly Kelly continued to suck his cock and John noticed that she was now able to get abo
her mouth as she bobbed back and forth. Still feeling Mrs. Adams' hand on his shoulder, Joh
looked up at her. He noticed that the top of her robe had slightly parted and he could now se
with a big hard nipple pressing against the material.

She looked down and smiled at him, seeing where his eyes were. Caressing his shoulder so

"Gosh, Mr. Adams, you sure do cum a lot," Kelly said, smiling up at him, his hard cock still in

"Do you like to eat cum, Kelly?" he asked.

"Oh, yeah, I love cum. I love the taste of it. It makes me so wet."

"Would you like it if I ate your pussy for you before I fuck you?"

"Oh, yes, I love having my pussy sucked."

"Why don't you lay on that coffee table there behind you," he suggested, smiling at her.

"Okay," she said, turning around. Her mouth dropped open and her hands tried to cover her
Mrs. Adams sitting on the sofa next to John.

"M-m-Mrs. Adams!" she cried. "I-I-I didn't know you were here I mean --"

"That's okay, Kelly," she replied. "It was wonderful watching you suck Bob's cock. I could tel
liked doing it."

"Y-y-you don't mind?" she asked, terrified.

"Of course not. Why should I? That's what he's paying you to do, isn't he?"

"Well, yes, but he's your husband, I mean."

"You just don't worry about it. Lay down here on the table and let Bob eat that sweet pussy
to eat pussy. I know."

"Well, okay, I guess," Kelly said, letting her hands drop. "If you're sure you don't mind. That i
okay."

"I promise," she said, crossing her heart with a finger.

Shrugging, Kelly crawled onto the coffee table, laying on her back with her feet up on the ed

"Umm, yes, fuck me," Kelly panted, her hands between her legs holding her pussy wide ope

"You've got quite a sister," Mrs. Adams said, turning to John, one hand still firmly on his coc

Without any warning Mrs. Adams suddenly moved so that she was straddling John's lap fac

"While Bob's busy with Kelly, you can make me happy," she said, reaching down between h
his cock in her hand, guiding it to the entrance to her hole.

John gasped when he felt the hot velvet of her pussy envelope his cock. He was so shocked
what to do. But that didn't matter, because Mrs. Adams knew exactly what to do, and she di
fuck him, sliding her smooth pussy back and forth on his cock. She lifted one of her tits and
mouth, encouraging him to suck on it. John couldn't believe it. Kelly was getting fucked by h
coffee table, and he's paying for it, while his wife is fucking him on the couch, and he doesn'

John heard Kelly gasping and knew she was only moments away from cumming. He couldn

"I've never done that before," she replied, "so please don't hurt me."

"What do you want me to do?" he asked. "Tell me."

"Oooh, I want you to fuck me in the ass," she gasped as he slammed his cock all the way in

"Why don't you get on your hands and knees on the floor then," he said, slowly withdrawing
her pussy.

"Oh, don't take it out," Kelly gasped when she felt his cock withdrawn from her grasping pus

Helping her to sit up, Kelly seemed to notice John and Mrs. Adams for the first time.

"Oh, John, what are you doing?" she asked as she watched Mrs. Adams sliding her ass bac

"I'm not doing anything," John gasped, his cock ready to explode from Mrs. Adams' incredib

"Cum inside me now, John," Mrs. Adams panted, fucking him hard and fast.

"Oh, god, oh, god," John said, feeling himself go over the edge as his balls began to spasm

"Oh, yes," Mrs. Adams cried, feeling his hot cum shooting deep into her pussy. "That's it, fill

Kelly's mouth was hanging open as she watched and heard her brother filling Mrs. Adams' p

"Here you go, Kelly," he said, sliding his cock into her wet pussy from behind.

"Ooh, yes," Kelly breathed when she felt his cock fill her pussy.

"Kathy, will you get me the KY, please," Mr. Adams asked as he slowly pumped Kelly's puss

"Sure, Bob," Mrs. Adams replied, slowly pushing herself up off of John's cock.

John could only stare as Mrs. Adams stood momentarily in front of him, her robe hanging op
absolutely hairless and her pussy lips were red and swollen, gaping open. Smiling at him, sh
opened a drawer in the coffee table, reaching in a removing a tube of KY. She then went to
down to kiss him as he stroked his cock in and out of Kelly's pussy.

"Would you like me to do it, Bob?" she asked.

"Yeah, if you don't mind," he replied, smiling at her knowingly.

Squirting a generous amount of KY onto her fingers, Kathy began to rub in onto Kelly's assh finger inside and making sure to lubricate the inside of her virgin asshole too. Then Bob slid Kelly's pussy and pressed the head of it against her asshole. Kelly groaned as she felt the h stretching her asshole as it slid into her. She was gasping and panting as she felt him rest th moment, her asshole slowly adjusting to the size of his cock just inside. Then slowly and ine to push his cock into her ass. Kelly felt like she was being split in two as his big cock slowly filled her ass. She couldn't believe how stuffed she felt when she finally felt his pubic hair pre against her ass as he buried his cock completely in her.

"Man, this is one tight ass," Mr. Adams exclaimed, resting as Kelly adjusted to having his en up her ass. "How do you like it, Kelly?" he asked.

"Oh, god, you're so big," Kelly sobbed.

"It'll stop hurting in a minute," Kathy Adams assured her. "It's like that for me too."

"You mean you let him fuck you in the ass too?" Kelly gasped.

"All the time," she replied, moving around in front of Kelly. "You'll begin to enjoy it in a few se she said, sitting down cross-legged in front of Kelly. "It's probably hurting less already, isn't i asked, leaning forward and gently kissing Kelly on the mouth.

"Uh, yeah, I guess so," Kelly agreed, feeling herself relax a little.

"Well, then, let's fuck," Bob said, slowly pulling his cock back out of Kelly's ass, then just as pushing it back in.

"Oh, god," Kelly gasped as she felt Bob's huge cock sawing in and out of her ass. "It's so big lowering her face to the ground as he continued to slowly fuck her ass.

"Here, maybe this will help," Kathy Adams suggested, uncrossing her legs and putting one o Kelly, scooting forward until her naked pussy was right in front of Kelly's nose.

"Suck her pussy, Kelly," Bob Adams said, his cock never slowing down. "Suck Kathy's pussy

John couldn't believe what he was hearing. He got up from the sofa where he had been sittin where he could closely watch his sister. He could see Mr. Adams' cock sliding in and out of Adams' cum-filled bald pussy was split open just an inch in front of Kelly's nose. Each time M

John awoke the next morning to the sensation of Kelly sucking his cock to life as she lowere his face. I love waking up like this, John thought as his tongue slithered into his sister's puss up her already flowing juices. After Kelly had cum once from John's tongue, she turned arou him, easily sliding down on his cock as her pussy enveloped him.

"I love your cock, John," she said, slowly fucking him.

"And I love the way you love my cock," John said, thrusting up to meet her. "How do you fee

"Oh, my ass?" Kelly asked, sliding her pussy back and forth on his cock. "It doesn't hurt or a that's what you mean. Why, do you want to fuck me in the ass?"

"I'll fuck you anywhere you want me to," John replied.

"Well, I want you in my pussy right now," she said, "but later I want you to fuck my ass for m

"God, Kelly, you're something else," John said, feeling his balls begin to churn. "I think I'm al cum. Where do you want it?"

"Oh, I'd love to feel you cum in my pussy again," she said, "but I'd rather eat it now, my favo breakfast."

"You'd better hurry," he said as she scrambled off of him and turned to suck his gooey cock again lowering her pussy onto his waiting tongue. As his tongue slid up into her hole, John f explode as Kelly sucked on his cock. He lapped at her pussy as she sucked the cum from h all of it and sucking him clean before lifting her head from his lap.

"God, I love the taste of your cum," she said, climbing off of his face and turning to kiss him, herself on his mouth and knowing that he could taste his own cum on hers. "But I'd better ge before mom and dad wake up," she said, getting to her feet. "Thanks for the nice fuck."

"Yeah, you too," John said grinning as he watched her naked ass swinging as she left his ro

Then Tom lifted his face and stood up and John was looking right into his mother's pussy, sp

"Are you going to cum in me?" she asked, lifting her hips to meet his thrusts.

"I'm going to cum all over you," Tom panted, slowing down. "Would you like that?" he asked
his cock from her pussy.

"Oh, put it back in, put it back in," she cried, lifting her hips to try to find his cock.

"Sure, I'll put it back in," he said, rubbing his cock on her swollen clit, causing her to jump.

"Oh, fuck me, Tom, fuck me," she begged.

"At your command," Tom said, thrusting his hips forward.

"Oh, oh, oh, my ass," Karin cried out. "Oh, it's so big."

John realized that Tom had pushed his cock into his mother's ass and that he was now fuck

"It's okay, tell me now," Kelly insisted, not having any idea of what he wanted to tell her.

"Oh, I think it should wait," John advised, glancing at Becky.

"Becky won't tell anybody, will you, Becky?" Kelly replied, turning to her friend.

"I promise," Becky agreed, crossing her heart.

"I don't think you want to hear this, Becky," John told her, noticing how nice she looked sittin

"But what about my clothes and stuff?" Becky asked.

"We're about the same size," Kelly observed. "You can borrow some of mine, okay?"

"Well, if they say it's okay," Becky agreed.

"Okay, I'll see you two later," John said, hurrying off to his next class.

CHAPTER EIGHT

As John and Kelly and Becky rode their bicycles home from school that afternoon John was
directly home, not wanting to have the confrontation with his mother that he knew was due.

"I think I'll go down to the river for a while," he said as they neared their neighborhood. "I'll s

"Well, no, of course not," Becky said indignantly. "Have you?"

"Yes," Kelly replied simply.

"You have! You're kidding! With who?"

"I can't tell you that," Kelly said with a laugh.

"Did you like it?" Becky asked, curious now.

"Oh, I love it," Kelly replied enthusiastically. "It's the best thing there is."

"Wow! Weren't you embarrassed to be naked like that?"

"A little bit at first," Kelly conceded, "but then it was no big deal."

"Didn't it hurt?"

"Just a little the first time, that's all."

"The first time! You've done it more than once?"

"Well, of course, silly. What do you think these bodies are for?"

"I don't think I could do it," Becky said wistfully.

"Why not?"

"Because I'm just too small."

"Too small! We're almost the same size."

"No, not that way, down there," Becky said, her hand waving in front of her shorts.

"What do you mean?"

"Well, even when I use a tampon it's real tight. I think a guy's thing would rip me apart."

"That's nonsense," Kelly said. "Tampons are always tight because you're not wet and excite

"Thanks a lot," John said, feeling a bit of a flush in his face as Becky continued to stare at h
astonishment.

"Becky, haven't you ever seen a cock before?" Kelly asked, seeing Becky's expression.

"N-no," she stammered, embarrassed as she realized that she had been staring.

"Well, we don't have any time now, but later tonight after dinner maybe John will let you see
okay?"

"Oh, that's okay," Becky said quickly, unable to take her eyes from it.

"You don't mind, do you, John?" Kelly asked, smiling at him, her pussy wide open and her cl

"We'd better get home for dinner," John said, ignoring her as he got to his feet, his cock swin

"I'm sorry about that, mom, I was just doing what Tom told me to do," he replied lamely.

"I see. And you didn't want to do it. And you didn't enjoy it, right?" she asked.

"No yes. Well, you know what I mean," he said.

"No, I'd like to hear you explain yourself, please."

"Well, yes, I did want to do it, and yes, I did enjoy it," John said, blushing. "But so did you," h
defiantly.

"Yes, I did," Karin agreed, nodding. "But that doesn't make it right. And I don't think your fath

"I guess not," John answered, smiling as he thought of his father's reaction. "But I'd never te

"I'm sure you wouldn't," Karin said, smiling at her son.

"Mom, are you and dad having, you know, any problems or anything?"

"No, of course not," Karin replied. "What makes you ask that?"

"Well, gee, mom, I mean, this morning."

"Oh, well, of course I understand why you ask, but no, there's no problems between your fat

"Sure, mom, no problem."

"Then I'll say good-night," Karin said, turning the knob and opening the door.

"Night, mom," John replied.

The door closed behind Karin and John fell back on his bed totally exhausted from nervous

"See, I told you he'd be playing with himself," Kelly said with a laugh.

"What do you two want?" John asked, feeling very exposed and uncomfortable.

"I promised Becky you'd let her see your cock again. She seemed so fascinated with it earlie you could maybe teach her how to do some things with it."

"Really! Is that right, Becky?" John asked, staring at her blushing face. "Do you want to learn with a cock?"

"Y-y-yes," she stammered.

"Well, if I'm going to let you experiment with me and I'm naked, you have to be too."

"Oh! Well --"

"Sure, why not?" Kelly said. "It's not like he hasn't seen us before."

"You mean, you would too?" Becky asked.

"If you want me to, I don't mind. It might be fun."

"Well?" John asked, letting his hand again wrap around his cock.

"Okay," Becky agreed, slowly reaching down and pulling her t-shirt off over her head, leavin naked next to an equally naked Kelly. "What now?"

"We should get on the bed," Kelly said, climbing over John, making sure to drag her pussy a she sat on the other side of him, her legs crossed Indian fashion, exposing her split pussy w sticking out.

Becky followed Kelly, climbing over John's legs to kneel next to Kelly right at John's hip.

"What should I do?" she asked, staring at John's hand slowly massaging his cock.

"Well, just do what I'm doing," John suggested.

"Go ahead, silly," Kelly said, taking Becky's hand and putting it on John's cock.

John let his hand fall to his side as Becky slid her fingers around his cock, gently squeezing getting accustomed to the feeling of John's cock in her hand, Becky began to slide her hand John's cock, just as she had seen him doing when they came into the room. As she did so a formed at the tip of John's cock.

"What's that?" she asked.

"Oh, that's the best part of it all, almost," Kelly said. "Go ahead and lick it, you'll see."

"You're kidding!" Becky exclaimed, staring at Kelly in shock.

"No, I'm not," Kelly laughed. "If you don't, I will."

"You wouldn't!" Becky said, shocked by what Kelly was proposing. "He's your brother."

"Oh, right now he's only a cock, and if you don't take the treat you're being offered, I will."

"No, I'll do it," Becky said, squirming a bit on the bed.

Slowly she leaned over, sticking her tongue out and licking the drop of pre-cum that had forr sticking the tip of her tongue into the slit at the top of John's cock in the process.

"Isn't it yummy?" Kelly asked, excited watching Becky lick her brother's cock.

"It's okay," Becky said, tasting it for the first time. "I guess it's hard to tell."

"Just suck on it and you'll get more," Kelly told her. "Just pretend it's a lollipop."

"You mean all the way in my mouth?"

"Sure. Do you want me to show you?"

"You wouldn't!"

"I told you, it's just a cock. You suck it, you fuck it. If you're lucky it's attached to someone yo

"That's a terrible attitude," Becky said, shaking her head but not releasing John's cock from

"Well, what about your father fucking our mother?" Kelly asked. "You think it's any different?

"Well, I don't believe it," Becky said.

"You better believe it," John said, "because that's exactly what I saw, and I'll bet we'll all see
morning."

"Well, maybe," Becky conceded, stroking John's cock in her hand.

"Go on, Becky, suck on it," Kelly encouraged. "You'll never learn if you don't try."

"Yeah," she replied, leaning over to lick the head of John's cock again. But this time she ling
her tongue around the head of his cock, even gently sucking on the head of it for a few seco
back up, her hand never leaving his cock.

"Isn't it nice?" Kelly asked.

"Yeah, it's okay," Becky agreed.

"See how much of it you can get in your mouth now," Kelly suggested.

"Why?"

"Well, that way you can pretend to fuck his cock with your mouth and it feels really good to h
explained. "And if you do it right, then he'll get so excited that he'll cum in your mouth and yo
taste the goodies that way."

"I don't know," Becky said hesitatingly.

"Watch," Kelly said, suddenly leaning over and engulfing John's cock in her mouth, feeling B
out of the way as she went all the way down on him. She bobbed up and down a few times a
smile on her face and John's cock glistening with her saliva. "That's how you do it."

"Kelly, he's your brother!" Becky exclaimed in shock.

"Well, he's got a big, delicious cock right now," she replied. "Go on, suck on him. If you don't love a mouthful of his cum right now. And I'll bet John will suck your pussy for you if you do a won't you, John?"

"Sure I will," John agreed. "I love to eat sweet pussy."

"Gosh, you really like to do that?"

"I'll show you," John said, sitting up. "Lay back," he suggested, swinging himself off the bed pulled on Becky's shoulder, pulling her onto her back where she lay with her legs pressed to feet dangling off the end of the bed.

John got on his knees at the side of the bed, putting a hand on either knee and pushing upw until Becky's feet were resting on the edge of the bed, her pussy exposed to his gaze.

"I don't know," she said, one hand trailing down to cover herself.

"Hold it open for me," John said, leaning forward and licking her fingers where they covered her fingers parted slightly John slid his tongue between them, tasting for the first time her sw

"You've got to be quieter," Kelly whispered, bending over close to Becky and kissing her sof She was shocked to feel Becky's tongue slide into her mouth as Becky gripped her head, kis John continued to suck her pussy. Kelly happily kissed her back, taking advantage of the sit hand come up to cup one of Becky's breasts, her fingers finding her hard nipple and pinchin it as they continued to kiss.

"Wouldn't you like to suck John's cock now?" Kelly asked, staring right into Becky's eyes.

"Oh, yes, but don't stop, don't stop," she begged.

"We won't," Kelly assured her, tugging on John's arm to drag him up onto the bed next to Be

"Wasn't that wonderful?" she asked, kissing her softly.

"Oh, it was so nice," Becky breathed. "I can't believe how it all made me feel."

"And didn't you love the taste of John's cum?"

"Mmm, yes, it's wonderful," Becky agreed.

"And your pussy tastes so sweet too," Kelly added.

"You liked that?" Becky asked.

"Oh, yes," Kelly told her. "It's the only thing I like as much as a cock."

"You've got a great pussy to eat," John added.

"Well, what now?" Becky asked, her face flushed.

"Well, my pussy could sure use some attention," Kelly said. "Any volunteers?"

"Gosh, what could I do?" Becky asked.

"The same like I did for you," Kelly replied.

"You mean lick your pussy?"

"Well, since you don't have a cock to fuck me with, your tongue will have to do," Kelly said w
"Unless you don't want to, then I'll make John make me happy."

"Your brother!"

"Sure, silly, why not? If I can suck his cock, he can sure eat my pussy for me, or fuck me for
he can get it up again after that nice blowjob you gave him."

"You'd let your own brother fuck you?" Becky asked, incredulous.

"I'd let any cock fuck me right now, unless you're going to do it."

"I don't know if I can," Becky admitted softly.

"Well, look, let's get more comfortable," Kelly said, pulling Becky onto the bed and straddling

position. "I'll eat your pussy some more and you can either eat mine or John will or he'll fuck
long as someone makes me cum."

And with that Kelly lowered her face between Becky's thighs and stuck her tongue into her p
juices that had again filled her from her excitement. Her own pussy hovered just inches abov
her lips spread and her juices dripping off her huge distended clit. Becky just stared at Kelly'
mouth open as Kelly's tongue worked magic in her own pussy.

Then she was aware of John's cock sticking in her face, the head of it nuzzling Kelly's pussy

"Oh, god," Becky breathed as she felt John's tongue slip into her pussy. "That feels so good

"It tastes even better," John managed to say as he caught his breath before diving back into
pussy.

John happily slurped at Becky's pussy, thoroughly enjoying his breakfast. He was definitely
when he felt Becky lay forward and then his cock was engulfed by a warm moistness as Bec

"Thanks for the suck, Becky," he said. "But I can't wait to fuck you."

"And you will," Kelly said, "but later. See you in five."

They all met for breakfast and Kelly had a hard time not bursting out laughing as she watche
in her seat, knowing that she was just as hot as she was. They finally finished and gathered
books and left, taking their bicycles and riding away from the house, but not to school. Wher

corner they went around, stopping at a house that was directly in back of theirs, dismounting their bikes up against some bushes as they quietly made their way through the yard to their John had thoughtfully left the window to his room unlocked and open. Quietly they snuck fro the living room where they could hear and also see into the kitchen where Karin was cleanir breakfast.

"It won't be long now, you'll see," John whispered.

And true to his word, a minute later the door opened from the garage and Becky's father Tor

"God, Tom, I've been so nervous," Karin said, turning to greet him. "With Becky here all nigh nervous."

"But why?" Tom asked, reaching for her, his hands going into her robe and parting it.

"Because of yesterday, of course," she replied, shrugging her shoulders and letting the robe ground, leaving her standing there nude. "I talked to John about it but I'm not sure what effe

"John'll be fine," Tom said, pulling her into his arms and kissing her. "But I've got a meeting i so we'll have to hurry this morning."

"That's it, just stop by for a quick fuck and run," Karin laughed.

"That's right," Tom laughed with her. "Now bend over the table and let's see that beautiful as yours."

With a smile Karin moved over to the table and spread her legs wide, then lay forward, pres pussy to him, which happened to be directly in line with the view John, Kelly and Becky had They were all treated to the sight of Karin's ass and bald pussy staring at them. John looked that her mouth was hanging open in disbelief as she stared at the scene in the kitchen. Ther wider when she saw her father drop his pants and his big stiff cock sprang out.

"He's so big," she whispered.

"I'm going to fuck him," Kelly whispered back. "It'll fit just fine."

Then Tom stepped in the way of their view and they knew from his motions that he was fuck in view of the moans and groans coming from her. They watched in silence as Tom fucked k

"I'll see you tomorrow morning, Karin," Tom said as he pulled his pants up. "Sorry I've got to

"That's okay," Karin said, not moving from where she lay sprawled on the table. "I'm just goi
for a minute and enjoy."

"Bye," he said, bending over and kissing her on the ass.

John watched Kelly and Becky's faces with a smile on his face as he saw the disbelief writte

"John! What do you think you're doing?" Karin screamed at him, scrambling to sit up.

"I'd say I was filling a need that Tom didn't quite cover," John said, suddenly unafraid, knowi
was nothing she could do about it.

"You watch your mouth, young man," Karin snapped at him, totally at a loss of how to deal w
situation. "I'm your mother, damnit. Doesn't that mean anything to you?"

"Sure it does, just like you being dad's wife and all that," John replied. "Besides, you liked it

it. What do you care anyway? I mean, it's obvious to me that you're not in love with Tom, you

"This conversation is not going to happen," Karin said. "You get yourself to school right now

"Suck my cock for me first," John demanded. "It's still gooey from being inside of you."

"I most certainly will not!" Karin exclaimed.

"Sure you will," John replied. "Especially since I'll do the same for you too."

"You'll what?"

"Suck my cock for me and I'll suck your pussy for you," John said simply. "Don't you want m

"But I'm full of ..." Karin began.

"Cum, Tom's and mine," John finished for her, letting one hand slide up her leg so he could

fingers to his mouth and sucking on them.

"God, he's something else, isn't he?" Becky whispered to Kelly.

"He's the greatest!" Kelly whispered back as she watched her mother slide off the table to kn
John, his wet, gooey cock sticking in her face. John stepped slightly to the side, causing Kar
that she wasn't facing in the direction from which Kelly and Becky were watching.

"God, I must be totally crazy," Karin muttered, opening her mouth and letting John's still hard
closing her lips around the base after it had slid into her throat, filling her mouth completely.

"Oh, yeah, mom, that's great," John sighed as he felt his mother suck on his cock with her e
throat. "You really know how to suck a cock."

"Mmmm," Karin responded, loving the taste of all the cum and the feel of her son's big hard
"You have a nice cock, John," she said, momentarily letting his cock out of her mouth before
again.

John just stood there letting her suck on him, looking over at Becky and Kelly every once in

on his cock. He knew that he would cum if she continued sucking on him but he just didn't c
good! And then it happened, he exploded in his mother's mouth, cum filling her cheeks befo
down, sucking on him and milking him as she sucked her son off. When she had sucked eve
from his cock, even going so far as to chase the last little bit with the tip of her tongue in the
cock, she gently sucked the head for a moment, then kissed it before letting him go, his coc
clean.

"God, what a great blowjob, mom," John breathed, staring at his mother's face.

"Yes. Well, that's not really anything you should have ever known," Karin replied, a blush ap
cheeks.

"No, but I do," John replied, offering her a hand as she got to her feet, "and now I'm going to
something else I probably shouldn't ever get to know about too," he continued, helping his m
on the table.

Taking his mother's feet and placing them on his shoulders, John knelt in front of the table, h
inches from his mother's open oozing pussy. Karin stared in amazement as her son stuck hi
slowly slid it into her pussy. She almost fainted with delight as she felt him glue his mouth to
to suck and tongue her pussy.

John found himself amazed that he was sucking his mother's pussy, especially since it was
was surprised to find that he really didn't mind, that it tasted just as good. So it was with deli

"Oh, I'm going to cum," John groaned, pumping his cock in and out of his mother's pussy.

"In my mouth this time, John," Karin panted, trying to meet his thrusts.

"Now, now," John gasped, pulling his cock from his mother's pussy and stepping back as sh in front of him, opening her mouth and engulfing his cock just as it exploded, cum filling her sucked on him. She sucked him dry and clean and then got to her feet.

"Now, off to school with you and we'll talk later," Karin said.

"Sure, mom," John said, dazed by the experience. "Oh, Kelly and I were going to go to the m that okay?"

"Just be home by curfew," Karin said, surprised how easily they had slipped back into a norm relationship, even though they were both still naked.

John pulled his clothes on, now unsure of himself, and left with a quick and quiet good- bye Karin just sat there for a few minutes staring into space and thinking about what she had jus shaking her head she got to her feet and went down the hallway to her bedroom to take a sh Kelly took advantage of this to sneak out of the house where they met John down the street

"I can't believe you did that with your mother," Becky said, staring at him in awe.

"I can't either," John admitted. "It just happened."

"It was so exciting," Kelly said. "I'm just so wet."

"Me too," Becky admitted with a giggle.

"I can't wait to see you and John fuck," Kelly said as they approached the school.

"What!" Becky said, blushing.

"Admit it, you want to," Kelly said, nodding knowingly. "And after seeing your father's cock I
him."

"You'll what?" Becky burst out with a laugh. "And when are you going to do that?" she asked

"Tonight," Kelly said.

"No way!" Becky retorted.

"Wanna bet?"

"Bet what?"

"If I fuck your father tonight, you fuck John tomorrow night."

"Deal. Because you don't have a chance."

"You just agreed because you want to fuck John," Kelly laughed. "But it doesn't matter. I'll g

"How will I know if you're telling the truth?"

"You can watch."

"How?"

"Well, I think I'll fuck him in his office tonight, so you come to his office around 7:45, quietly,
see all you need to."

"You're so crazy," Becky laughed.

"I can't wait to fuck you," John said, smiling at her as they split up and hurried to their classe

CHAPTER NINE

There was really no opportunity for Karin to talk to John after school and he and Becky left s dinner to go to the movies. She had mixed feelings about what had happened that morning, she was also extremely thrilled by the experience and knew that she wouldn't mind some so performance. She shook these thoughts from her head and instead took Jason to bed early falling asleep thinking of her son's cock.

John and Kelly arrived at Tom's office in high spirits. They were having so much fun they tho burst. Tom was there waiting for them, quietly handing John $1,000 as they shook hands.

"It's nice to see you again," Tom said, smiling at Kelly.

"Me too," Kelly said, smiling back at him. "I've been thinking about your cock," she said, step and cupping him in her hand through his pants. "I remember how big it was."

"Would you like John to wait somewhere else this time?" he asked her.

"Oh, no, I like it when John watches me," Kelly replied, rubbing his cock. "It makes me even

"Well, why don't you suck on me for a bit then," Tom suggested. "I'll sit down," he said, stepp and quickly dropping his pants, his cock sticking out. "Is this comfortable for you?" he asked into a comfortable looking chair.

"Just fine," Kelly said, reaching for his erect cock as she sank to her knees in front of him.

"Why don't you undress first," Tom suggested.

"Um, nice idea," Kelly agreed, getting to her feet and quickly undressing. "I'm so wet already sticking her fingers into her pussy and pulling them out glistening. "See," she said, licking the taste good tonight," she mused as she sank back down to her knees in front of him, bending his cock into her mouth.

"Oh, that's so nice," Tom sighed as he watched Kelly engulfing his cock.

"It tastes so good," she said. "Sort of like pussy too," she added.

"You never know," Tom laughed, realizing that he hadn't washed since he had fucked Karin

"And she likes it in the ass the way I do too, doesn't she?"

"Yes, she does like it in the ass," Tom laughed. "But why these questions?"

"I just think it would be fun if we could all do it together, that's all," Kelly replied.

"You arrange it and I'll be happy to attend," Tom laughed, giving Kelly a helping hand up.

"I will," Kelly agreed, pulling her clothes on. "But we have to get home before we get in troub

Becky just stared after them as they pedaled off on their bicycles, then quickly hurried home father so she wouldn't be missed. What an incredible day it had been. So much had happen Kelly was right. She couldn't wait for John to fuck her tomorrow night. And she was ashame It wasn't right to have such feelings, she had been taught. But then she had watched her fat Kelly's mom and Kelly too. And he did have a nice cock, Kelly was right about that.

The next day Becky saw Kelly right away in their first class. She felt nervous butterflys in her felt immensely warmed by Kelly's bright smile.

"Hi," Kelly said when they finally got a chance to talk. "John's real excited about tonight. Did agree to let you spend the night with me?"

"Yeah, they did. I asked dad right after he got home last night. He would have said yes to ar point."

"It's amazing how compliant a well-fucked man can be," Kelly laughed. "And your dad sure c little sore today. Oh, yeah, and I sucked John's cock a bit this morning, but I didn't let him cu that for you."

"Oh!" Becky said, still surprised by Kelly talking like that so matter-of-factly.

"Aren't you excited?" Kelly asked.

"I'm soaked already," Becky admitted, giggling. "It's sort of embarrassing. My pussy has nev

"See you later then," Kelly said, going off to her next class.

John got home that afternoon from school before Kelly who had some things to take care of

"Oh, John, that was your sister," Karin cried, turned on by his cock in spite of herself.

"That was a great fuck, mom," John said, slowly fucking her ass with his rapidly diminishing your pussy for you later, I promise," he said, letting his cock finally slide from her ass. "You'v all over you," he said with a laugh.

"Oh, John," Karin sighed as he helped her up. "Now we've really got problems, as if we didn

"Don't worry about Kelly, mom," John reassured her. "She's really pretty cool and I'll talk to h too," he added, thinking of fucking Becky that evening. "I'm going to go get cleaned up a bit said, looking down at his scat smeared cock hanging in front of him.

"Yes, you better, and I'll do the same," Karin agreed, shaking her head in disbelief at what h happened.

"I can't wait to eat your pussy again," John said as he left the kitchen.

"Get out of here," Karin said, laughing at the absurdity of the entire situation.

God, I am so horny, Karin thought as she slid off the table to stand on her feet. And I've just silly too, she thought. I wonder if there's something wrong with me, she thought, thinking bac half year since she had been fucking as much as she could. Tom Henderson wasn't the only he was sure a good one. And now her own son! But he sure knew how to use that magnifice smile to herself ruefully as she stepped into her own shower. And she couldn't wait to have h for her either, as much as she had acted and said otherwise.

John had showered and lay down to take a nap before dinner when he was suddenly awake jumping on his bed.

"So, been fucking mom again, huh?" Kelly asked, grabbing his cock through the bed covers. the ass too, huh?" she said, squeezing lightly on his rapidly growing cock. "I sure hope you s for Becky here. She's so horny her panties are making noise they're so wet."

"Kelly!" Becky said, astonished.

"Well, they are, aren't they?"

"Well..."

"Come on, take them off and lets see," Kelly encouraged. "You're not going to need them ar

"God, that was so good, you two," Kelly finally said. "I can't believe it."

"That was incredible, Kelly," John breathed.

"You two are amazing," Becky chuckled. "You are totally perverted."

"Isn't it great!" Kelly agreed, turning to smile at Becky.

"Yes, actually, it is," Becky laughed. "It makes me want you to fuck me in the ass," she said, John.

"Well, you'll have to give me a few minutes to catch my breath," John sighed, "but I can't wa ass."

"We better get ready for school," Kelly said, getting to her feet. "You can fuck Becky's ass to can get permission to stay over."

"Uh, Kelly, we're going to visit the Adams tonight, remember?" John said.

"Oh, gosh, I had forgotten," Kelly said, her hand going to her face as she flushed.

"What, Sara's house?" Becky asked, not understanding.

"Well, yeah, only Sara's not there tonight," Kelly said with a giggle.

"Then why go there?" Becky asked.

"Should we tell her?" Kelly asked John, a smile on her face.

"It's up to you," John said with a shrug.

"What?" Becky asked, getting to her feet, her hands on her hips.

"If I tell you will you be our sex slave forever?" Kelly asked.

"What! Are you crazy?"

"Don't you want to be our sex slave?" Kelly laughed. "Think of all the fun we'll have."

"Please tell me," Becky begged.

"First you have to agree," Kelly said.

"I agree, I agree," Becky said. "Now will you tell me?"

"Okay. We're going to visit Sara's parents," Kelly explained.

"So that's it? What's the big deal?"

"You'll see tonight," Kelly laughed. "It'll be your sex slave debut."

"What?"

"We go over there to fuck them," John finally had to explain, "just like Kelly did with your fath

"Do you think she'll show up?" John asked Kelly as they rode their bikes to the Adams' hous

"I hope so," Kelly replied. "It'll be a lot of fun if she does."

"Look, there she is," John said, seeing Becky at the corner closest to the Adams'.

"I'm really glad you came," Kelly said as they rode up to Becky.

"Me too," John added, a smile on his face.

"I can't believe I'm doing this," Becky said as they walked together.

"Is your pussy all wet just thinking about it?" Kelly asked with a laugh. "Mine sure is."

"I'm nervous," Becky replied.

"It'll be fine, you'll see," Kelly told her as they parked their bikes and knocked on the door.

"Why, hello, Kelly, and you too John," Kathy Adams said when she opened the door. "And w

"Hi, Mrs. Adams. This is our friend, Becky Henderson. I hope you don't mind if we invited he
us."

"Of course not. Any of your friends are welcome. Why don't we all go in and join Bob," she s
to lead the way.

"Bob, this is John and Kelly's friend, Becky Henderson. They invited her to join us this eveni

"Well, that's very nice," Bob Adams said, coming forward and shaking Becky's hand. "Woulc
to drink?" he offered.

"I wouldn't mind a Coke or something," Becky admitted.

"She's a little nervous," Kelly said, embarrassing Becky.

"Now, now, there's nothing to be nervous about here," Bob Adams said, "is there, Kelly?" as
glass of Coke.

"I don't think so," Kelly answered, moving to stand right next to him, her body pressed up ag
while her hand reached out to cup his cock through his clothes. "She's just shyer than I am."

"Why don't we sit here on the sofa while Kelly and Bob get started," Kathy suggested, taking
Becky by the arm and gently leading them to the sofa.

As they sat down on the sofa, Becky saw that Kathy's hand remained between John's legs,
through his pants. Then she saw Kelly dropping to her knees, taking Bob's pants with her as
cock and quickly sucked it into her mouth.

"Ahh, Kelly, you have such a talented mouth," Bob sighed as Kelly continued to blow him.

"Wouldn't you like to help her, Becky?" Kathy asked, her hand now wrapped around John's
extracted from his pants.

"Come on, Becky, he's got such a big, yummy cock," Kelly said, pausing from her activity jus

"Go on, dear, it's okay," Kathy assured her, giving her a little push as she started to get up fr

"Just suck him the way you sucked me," John added, "and you'll do just fine."

Slowly Becky made her way from the sofa to where she was kneeling next to Kelly in front o
and stopped sucking on Bob's big cock, holding it in her hand and offering it to Becky.

"Go ahead, suck on it," Kelly encouraged, watching as Becky hesitantly leaned forward and
around Bob's cock.

"Oh, yes, that's nice," Bob breathed as he felt Becky's lips close on his cock and her tongue
him.

Kelly bent down and began to suck on Bob's balls while Becky continued to suck on his cock

"Stand up here, John," Kathy said. "I want to suck your cock while I watch them."

Kathy's hand never left his cock as John stood up next to Kathy, positioning himself so that s

underneath. "John, you can eat me while Bob eats Kelly and Becky," she said, bringing her
edge of the sofa, opening her smooth-shaven pussy for him.

"Lucky you, John," Kelly said, quickly shedding her clothes.

"You'll get your turn, Kelly," Kathy murmured, her hand lazily sliding through John's hair as h

"Why don't you sit up here on the bar, Kelly," Bob suggested, smiling when her saw her you
again.

"Oh, that looks like a good idea," Kelly agreed, climbing up on the bar and sitting with her fe

"Oh, yes," Kelly replied. "She tastes so good."

"She certainly does," Bob added, lifting his face from Becky's pussy. "But if I remember corr

John watched as she went over and began to eat Becky's pussy, her husband next to her e

"Is that true, Becky?" Bob asked, getting to his feet.

"Yes," Becky breathed, still shaking from her many orgasms.

"And do you want me to fuck you in the ass?"

"Maybe," Becky sighed. "Kelly sure likes it that way."

"Yes, I know she does," Bob laughed. "So does Kathy. Ask John, he fucked her ass last wee

"It's yummy," Kelly agreed, smiling up at him.

"And his cock, you like that too?" he asked.

"John's got a great cock," Kelly said, still smiling.

"And where do you like his cock?" Bob asked.

"Everywhere," Kelly said, staring at him unashamed.

"In your ass?"

"Oh, yes, especially there," Kelly said.

"Then you suck John's cock until he's hard again so he can fuck you in the ass, and Becky, until I'm hard and I'm going to fuck you in the ass, okay?"

"Uh, sure," Becky said, struggling to her knees in front of him.

"Kathy, why don't you help them get ready," Bob suggested, a gleam in his eyes.

"I'd love to," Kathy Adams agreed, scrambling to the small end table and opening a drawer a jelly.

When she turned around she was greeted by the site of Kelly on her knees in front of her br cock, and Becky on her knees sucking her husband's cock. It was a sight that swelled her w especially seeing Kelly sucking her own brother's cock. What an incredible child, she though first time. It's a shame that Sara's not a bit more like her, she mused.

Leaning forward, she ran her hand between Kelly's legs, enjoying feeling how wet she was. of the K-Y on a finger, she began rubbing it on her asshole, then pushed her finger into her a jelly to lubricate her, feeling Kelly pressing back against her finger. Then she reached betwe and was shocked to feel how wet she was. She couldn't resist running a couple of fingers in feeling the heat as she squirmed. Then she began rubbing the K-Y on her asshole and felt h squirm. Gently pressing her finger against Becky's rosebud, Kathy felt her resist, then sudde finger slid slightly into her ass. She could feel Becky clenching her ass muscles on her finge patiently waited for her to stop, then gently pressed her finger further into her ass, smearing process. "But why not, daddy," a voice said from behind all of them. "It looks like so much fun."

Everyone froze and turned to see Sara emerging from behind the wet bar where she had be

"I guess so," Kathy sighed, realizing that she had now lost any and all vestiges of control tha
had over her daughter. "Are you a virgin, Sara?" she asked, almost fearing the answer.

"For the moment," Sara replied, smiling at her mother's obvious concern. "But I don't guess
longer."

"Maybe we should go," Kelly suggested, standing up, the cum running down her back and b

"Are you done?" Sara asked.. "Isn't there anything more that you were going to do?"

"I think we're done for this evening," Bob said, nodding at Kelly. "I'm sorry about this."

"Oh, I don't mind," Kelly said. "It made it sort of fun in a different way."

"Are you going to come back next week?" Sara asked.

"That's up to your parents, I guess," Kelly replied, shrugging her shoulders. "Do you want us week?"

"We'll talk to you during the week," Kathy answered.

"Well, I want you to come next week," Sara insisted. "And if they don't want to play like usua I'll play. You'll come, won't you?"

"Sure we will," John agreed, reaching for his clothes. "If your parents say it's okay, of course

"It is okay, isn't it?" Sara asked, a demanding tone in her voice as she stood with her hands

"Of course it is, dear," Kathy replied. "We just need to have a talk, that's all."

"Bye," Kelly said, turning and hugging and kissing both Bob and Kathy. "I really did have fun get to see you next week."

"Oh, you will," Kathy assured her. "We just need to talk. This has been sort of unexpected."

"See you in school, Sara," Kelly said, touching her on the hand as she walked by.

"Bye, Sara," Becky echoed.

"And you come next week too, Becky, okay?" Bob said as they moved out the door.

"Well, thanks," Becky said, surprised to be invited. "I'd like that. This was weird sort of fun, I

"Oh, yeah. That's it. And how do you plan on keeping him from knowing who he's fucking?"

"I'm going to blindfold him," Kelly said. "It'll be great, you'll see," she said, standing up on he
and riding off."

"She's crazy," Becky said, struggling to catch her.

"Yeah, but she's usually right about these things," John said, riding with her. "You'll see."

"Well, bye," Becky said, taking the turn to her house. "See you later."

"Bye," John said, riding off and catching up to Kelly who was laughing so hard tears were st

"What's so funny?" John asked, riding next to her as they approached their house.

"I just can't wait to see Becky fucking her father," Kelly told him. "It's going to be great."

"Hey, dad's car's not here," John observed.

"He must be at one of his meetings," Kelly offered.

"But who's car is that?" he asked, pointing to the one parked in front of the house.

"I've never seen it before," Kelly said, dismounting her bicycle at the garage entrance.

"Shhh," John warned, his finger to his lips.

Quietly they entered the house, pausing to listen for any noise. They heard a slight muffled s

"I've never seen a black one before," she said, looking up at him, his cock in her hand.

"It's just a cock, sweetheart," he said. "You suck it and fuck it like any other."

"That's just what I thought," Kelly said, leaning forward with her mouth open and sucking on

Karin," he laughed, seeing the sticken look on her face. "And you don't have to worry, I'll still you whenever you want," he said, slamming his cock in and out of her pussy. "Let's switch," other man. "I'm ready to cum."

John and Karin watched as the two men switched positions, the man who had been fucking feed his huge juice-covered cock into Kelly's willing mouth, while the other man jammed his pussy.

"Man, this is fine pussy," the man now fucking her said.

"Oh, yeah, suck it, baby," the other man said. "That's it, I'm cumming now," he cried, grabbin head and holding her down on his cock as his balls spasmed and he shot his load of cum in gulping mouth.

Kelly tried to swallow all of the cum but it was too much and it leaked out around the shaft ar her chin. She had no sooner finished sucking the last of his cum from his cock when the ma from behind announced that he too was ready to cum. Without hesitating Kelly dropped the and spun around, eagerly sucking the cock which had just been pulled from her pussy into h too exploded, again filling her mouth with hot cum. And Kelly just sucked and swallowed as loving the taste of cum filling her mouth over and over again.

Positioned as she was on her hands and knees, her gaping pussy, swollen and red from the taken, plus her ass were pointing right at her mother and brother who were standing side by perform, her mother with her mouth wide open in shock, her brother with a grin a mile wide a sister fuck like a true whore. John dropped his pants to the floor, his cock standing straight c him.

"What do you think you're doing?" Karin asked him, her eyes wide in shock.

"She looks so good I think I'm going to have some of that too," he replied, delighting in the s at his response.

"You wouldn't dare fuck your sister!" Karin exclaimed.

"Why not," John replied. "I fuck you," he said as he sank to his knees behind his sister, his c fist.

Rubbing his cock between Kelly's swollen gaping pussy lips, John slid his cock into her total

stretched-out-of-shape pussy, barely feeling it. Pumping a couple of times, he pulled his coc
pussy and moved up a notch and slid it into her ass, which she took without missing a beat s
from the cock in her mouth. Karin watched in astonishment as her son proceeded to fuck his
daughter, in the ass right in front of her while she sucked the cock of one of the two men wh
her after fucking her mother. Her whole world seemed like it was spinning out of control.

"You've got to stop this," Karin cried out, pulling on John's shoulder. "This is totally wrong."

"Okay, mom. I'll stop," John said, pulling his cock from Kelly's ass just as she finished suckin
the cock in her mouth. "I'll fuck your ass instead. I know how good that feels too," he said, gr
the hand and pulling her down onto the floor.

Firmly handling her, John forced his mother into a kneeling position on the floor in front of hi
pushing his cock into her ass while the other two men and Kelly watched in amusement.

"Oh, John, John," Karin gasped as he began to fuck her ass.

"It's still nice and tight, so I guess you guys didn't fuck her in the ass yet, did you?" John ask
pumped his cock in and out of his mother's ass.

"No, boy, we sure didn't," one of them responded. "But you keep at it, you're doing a fine job

And John did just that. He fucked his mother's ass until he couldn't take it any more, then he

CHAPTER TWELVE

After spending the night fucking each other to sleep, John and Kelly got up and dressed for

"We're not talking about my life," Karin countered uncomfortably, "we're talking about our life

"Well, I like our life as a family just fine," Kelly said. "Especially now. I mean, so what, we fuc
other. You can't tell me you don't enjoy it, I've seen you."

"But your father, if he knew..."

"Mom, I bet you're doing this just because of dad, if I know him. I mean, he thinks he's god,
around all the time, doesn't he?" Kelly said.

Karin's sudden flush of color in her cheeks confirmed the truth of Kelly's observation.

"But we need to get to school now," Kelly said. "You have fun with Tom when he gets here a
after school. Maybe you'll come down to the river with us and swim."

Before Karin could protest, they were out the door and on their way to school. Karin sat dow

with Kelly and then John with her. She felt like she was going to scream as the helplessness
overwhelmed her.

It's not like she could or would stop her own extracurricular activities. Kelly had been 100% c
her father. He fucked anything that moved without a cock, she thought bitterly. And he justifi
it as being just a pressure release from his high-pressure job. Well, two could play that game
grimly. And she loved the game. Karin had never realized how much she loved sex. And the
more she wanted.

Just then Tom walked in the door, just like John and Kelly had said, his zipper down and his

John and Kelly couldn't stop smiling as they rode their bikes to school. Life was just too muc
lately. They had almost $10,000 and they were both having as much sex as they wanted wit
people, including now their mother. Kelly confirmed to John that she planned on fucking thei
these days too, but not just yet. When they met at lunch, they were both surprised when Sar
asked if she could sit with them. They made room for her and she joined them.

"I'm really sorry if I ruined anything for you two last night," she said. "I just didn't know what t
couldn't believe what Becky told me, and when I saw it for myself, I don't know."

"So, Becky told you," Kelly said, nodding at John. "I didn't realize."

"Oh, don't be mad at her," Sara pleaded. "She and I have been friends forever. And I'm not
about it, just real surprised. And I don't know if I'm more surprised at them doing it or you tw

"So was I once," Kelly said with a laugh. "That's the easy part. But what do you mean, you w

"Oh, well, all of it, I guess," Sara admitted, her face scarlet now. "I know that's terrible of me,

"He'd probably love it," Kelly laughed. "And he's a good fuck. He knows how to fuck. And he

"I know, I saw it," Sara said, "up close while he fucked you."

"Mmmm, it was so good too," Kelly sighed, remembering.

"Have you ever even played with a boy?" Kelly asked, a twinkle in her eye.

"No, not really, just some kissing and stuff."

"What stuff? Did you let him touch your tits or between your legs?"

"Oh, no, not that, ever," Sara said, shaking her head.

"Well, you know if you want to do these things..."

"Oh, I know. And now I think if I don't I'll go crazy. I mean, I almost rubbed myself raw last ni
went to bed."

"We better get to class," John said, speaking for the first time. "We'll be late."

"Sara, why don't you come over our house after school," Kelly suggested as they got to thei

"Me either," John agreed.

They were both pleased when they saw Sara waiting by the bike rack after school.

"Hi, Sara," Kelly said, getting her bicycle.

"Hi, Sara," John said. "You coming to visit us?"

"Do you mind?" she asked.

"Of course not," John said. "We'd like it a lot."

They only talked of school things on the way to their house, all of them aware that that was

and introduced Sara. Then they went down the hall to Kelly's room and closed the door behi

"So, Sara, how can we help you?" Kelly said, slowly undressing.

"Um, well, I'm not sure," Sara gulped, seeing Kelly strip right in front of her and her brother.

"Would you like to have sex with me and John?" Kelly asked, getting right to the point, cuppi
her hands. "Or maybe you'd rather just be with John? Or me?"

"Oh, really!" Sara said, blushing deep red.

"John, would you like to have sex with Sara?" Kelly asked him, rubbing the front of his jeans

"I think that would be great," John said, a smile on his face as Kelly undid his jeans and tugg
the floor.

Since he had stopped wearing underwear his cock stood out in front of him.

"Oh, isn't that nice!" Kelly said, wrapping a hand around John's cock. "Come feel this, Sara,'
stroking John's cock.

"Oh, man, I can't believe this!" Sara gasped, staring at Kelly massaging John's cock right in
"You're doing your own brother!"

"He has such a nice cock, don't you think?" Kelly asked, still working his cock in her hand. "C

Holding her breath, Sara allowed Kelly to place her hand on John's throbbing cock. She was

"That feels nice, Sara," John said, smiling down at her. "Do it with your mouth now."

"What?" Sara gasped.

"Go ahead, suck on it," Kelly encouraged her. "And why don't you get out of those clothes to

"It's much better, believe me," Kelly said, suddenly dropping to her knees and pulling Sara's

"No, but this is embarrassing," Sara said, blushing as she looked up at John, his cock still in

"Take your shirt off too, Sara," John said, reaching out and pulling it up.

Sara had to let go of his cock as he pulled her shirt up over her head, leaving her standing t

"Now, let's suck on John's cock," Kelly said, dropping to her knees in front of John and takin
her hand. "If you won't do it, I will," she said, opening her mouth and slowly letting it slide in
tongue until her face was pressed up against his belly. Then she slowly let it slide back out,
from her mouth.

"He tastes so good," Kelly said, licking her lips and looking up at Sara. "You try now."

Sara was almost in shock as she let Kelly pull her down onto her knees in front of John next

"Come on, Sara, help me," Kelly said, licking John's cock and bobbing up and down on it.

Sara watched in astonishment as John sucked on Kelly's finger, tasting her pussy juices.

"Umm, that's nice," he said. "Why don't you let me lick you a little bit now," he suggested, tal

Sara was moaning and rolling from side to side as John slowly but surely fucked her, strokin
into her with each thrust, then pulling it almost all the way out before plunging back in again.

"It. Feels. So. Good." Sara managed to gasp as John continued to fuck her. "Don't. Stop."

"Not until I'm ready to cum," John agreed, picking up his rhythm as Sara's pussy adjusted an

"Fuck my father!"

"Sure, why not?" Kelly asked. "It's just a cock. And it's not like you don't like him or love him,
You're not trying to make babies, just fuck and have fun. That's why I love John so much."

"You two really fuck each other?"

"All the time," Kelly assured her. "In fact, if you hadn't been here now, that cock would have
pussy instead of yours. I gave it up for you."

"Oh, Kelly, are you really a friend?"

"Sure, why not," Kelly agreed. "We have a lot in common, I think."

"I better get home," Sara said, getting to her feet. "I can't wait until the next time," she said, r

"Sure we can," John replied. "I'll fuck you any time you like."

"Yeah, and next week maybe you can surprise your parents and join us," Kelly suggested.

"Oh, that would be something, wouldn't it?" Sara laughed as she pulled her clothes on. "Mor
me fuck."

"You'll probably be fucking and sucking them," Kelly observed dryly.

After Sara left Kelly and John just lounged on her bed naked, not doing anything but talking. suddenly a knock on the door and before either of them could react, Karin opened the door of total shock on her face as she saw her twins naked together on a bed.

"What do you think you're doing like that?" she asked, angry.

"Oh, mom, chill out," Kelly said with a laugh. "Why pretend? John just fucked Sara so she w a virgin anymore and I sort of helped. Now we're resting, okay?"

"No, it's not okay," Karin exclaimed, exasperated. "We talked about this."

"Yes, we talked about it and didn't agree," Kelly said. "And we don't agree. You've shown us have sex with whomever you want, whenever you want, as long as dad doesn't find out. We doing. And if we feel like having sex together, like you and John have done more than once, do," she said, reaching over and grasping John's cock in her hand. "And you're always welc matter who's involved."

"Don't you understand how wrong this is?" Karin asked desperately.

"It doesn't seem wrong to me," Kelly said, leaning over and sucking John's cock into her mo tastes pretty nice to me, what with Sara's pussy juice all over it."

"Well, I won't tolerate it," Karin said firmly.

"Look, mom," Kelly said, lifting her face from John's cock. "We've tried to be nice to you abo you've been nothing but uncool. So this is how it's going to be. We don't want to hear anothe about what you think of what we're doing. You've set the example. If you bother us again ab tell dad you've been fucking Tom every morning after he goes to work. "Oh, of course I would," Kelly said with a laugh, "if that's the only way to keep you in line. An we want you to join us, and we invite you, you'll join us."

"What do you mean?" Karin asked, stricken.

"That means if John wants to fuck you, you let him. If he wants to fuck you in the ass, you le

"The same," John told her, a grin on his face.

"Hey, mom, why don't you meet us later on this evening," Kelly said suddenly.

"What do you mean?" Karin asked.

"Well, drop us off downtown and then meet us again at say, 8:30," Kelly explained.

"But where, at the movie theater?"

"No, why don't you meet us at Tom Henderson's office," Kelly said, nodding her head.

"At Tom's office!" Karin exclaimed. "Why on earth?"

"Will you do it?" Kelly implored. "Please?"

"Well, okay," Karin agreed. "But that's really strange."

"John, mom looks like she needs a pick-me-up. How about it?" Kelly asked.

"Great idea," John said, dropping to his knees next to the sofa and taking Karin's legs and th

"That was so good," she said, a big smile on her face. "Can we eat dinner now?"

Everyone laughed as they went in to the other room and sat down to eat. They talked of the family with twins would talk about, school, sports, everything but their now totally incestuous relationship. That was never mentioned. When they finished eating, everyone pitched in and Kelly and John reminded Karin that she had said she'd give them a ride to the movie theater

"Oh, let me put some clothes on," she laughed, looking down at her still naked body.

As she drove them in to town, Karin tried to ask questions about what Kelly was doing but g deflected her questions. She dropped them off and promised to come to Tom's office to pick little more than an hour from now. As she drove away, they turned from the theater and wen where they found Becky in the lobby nervously waiting for them.

She needn't have worried on that score. Tom Henderson's wife Susie was very uncomfortab

already and was still having a hard time believing how big it was, and not even hard yet!

Gently taking her by the hand, Henry led the way into the house, quickly finding a room with
